COTTON CONFERENCE

Relations of Grower and Spinner Were Discussed.

THE SECOND DAY'S SESSION

Farmers Ready for Improved Methods So Declares Their Representative. Exchanges Defended as Essential to Business.

Atlanta, Oct. 9.—President James R. McColl called the second day's session of the International Conference of Cotton Spinners and Cotton Growers to order at 9 o'clock Tuesday morning in the hall of the house of representatives

President McColl suggested that the convention again take up for discussion the topic which was begun Monday on "Closer Relations Between Ginner and Spinner," a representative of the grower to be heard first, a representative of a cotton exchange next and then a spinner, one hour and a half to be set apart for the discussion; that reports of sectional committees be made thereafter and considered.

Vice President C. W. Macara was called to the chair to preside, and congratulated the conference on the excellent program made Monday.

He urged that no one expect too great things to be accomplished at this conference, declaring that great reforms could not be accomplished in a day; that it was the everyday work of the permanent organization from which results would flow, and that no one should be disappointed if but few actual results come at once from the conference.

Mr. Griffin Speaks.

Mr. Griffin, of the Farmer's union, was the first speaker representing the growers.

He declared that representing a million and a half farmers he was prepared to say that the former conference with the spinners had shown their readiness to abolish old business methods and to establish direct trade relations between grower and spinner. He said that this result should be brought about at this conference, and asserted that the farmers were organized and ready to carry out their part of the contract entered into with the foreign spinners in the conference at Washington to eliminate the antiquated method of selling cotton through the middle man.

He declared that the farmer recognized the God-given law of supply and demand, but would submit no longer to their product being made the stakes of gamblers in cotton exchanges.

Regrets Intemperance.

Mr. Burton, of the Liverpool Cotton association, the next speaker declared that he listened in sorrow Monday to the denunciation of cotton exchanges. Such intemperance of speech, he said, savored of the politician and was to be deprecated.

He asserted that it had been the constant study of the association he represented to advance and protect the interests of the spinner. Cotton exchanges, in his opinion, were of inestimable value to the cotton market, and the method of the spinners protecting purchasers by hedging on cotton futures was indispensable to the conduct of business.

German Deserters Captured.

Tangier, Oct. 9.—Three German deserters from the French foreign legation at Casa Blanca have been captured by Moroccan troops attached to the command of Gen. Bagdani. They were taken before Sultan Abdel Aziz at Rabt, who interrogated them and then handed them over to the German consul. Frightened by threats, certain envoys of Mulai Hafid have handed over to the customs authorities at Mazagan forty-four cases of cartridges recently carried away from there and which was the intention to send to Morocco City.

Unlucky Yawn.

Muncie, Ind., Oct. 9.—Mrs. Henry O. Current, an elderly lady residing near Rekey, is suffering from a badly dislocated jaw. The accident happend while the woman was yawning.

CORNELL'S EXPEDITION TO ASIA.

Many Inscriptions Collected and Classic Sites Relocated.

Ithaca, Oct. 9.—Professor J. B. Sterritt, organizer of the Cornell expedition to the Assyria-Babylonian Orient, has received the first report from the party, composed of A W Olmstead, J. W. Wrench and B. B. Charles, who are fellow assistants in the language and history department. They started for the Orient in March. The document is dated from Talas, Cesarea, in Turkey in Asia.

The party reports that everything has gone favorably and that the results obtained in comparitively well known Asia Minor promise far greater returns in the region of the Euphrates. The Cornell men have fixed the principal sites by the compass and trocleanter, have collected ininscriptions and found many new ones. They have examined and relocated many classic sites and they have collected over three thousand pottery sherds.

They declare that in the light of the material collected some of the most wide views in regard to the earlier people of Asia Minor and their connections will have to be modified or abandoned. They found that the maps of the Assyria-Babylonia region are very defective, and many of them are worthless. Important discoveries tending to show a connection between the people of early Asia Minor and the Greeks of the world of Homer have also come to light.

TRY TO CHECK SMUGGLING.

Estimated $3,000,000 Worth of Jewelry Smuggled Yearly.

New York, Oct. 9.—The Diamond Importers' Association has been trying for some time to check smuggling which has assumed collossal proportions, according to a report just made by Ludwig Nissen, the chairman of its customs committee. Nearly all the smuggling, according to the importers, is being done by wealthy tourists, because dealers regularly in the trade do not care to take the risk.

Necklaces of pearls, diamonds, rubies and emeralds and hand wrought ornaments in exclusive designs are the articles most commonly smuggled. The value of jewelry smuggled each year is estimated at between $2,000,000 and $3,000,000.

The report ask that smugglers captured in the act be punished more vigorously in the future. Heretofore it has benerally been the custom simply to seize the smuggled article and permit the smuggler to go free.

The specific request that the importers now make is that the federal authorities enforce a section of the law that requires offenders to pay the government as a penalty triple the value of a smuggled article, while the article itself is forfeited.

ASSUMES ARROGANT ATTITUDE.

Spanish Commander at Casa Blanca Said To Be Causing Trouble.

Paris, Oct. 9.—Special dispatches received here from Casa Blanca declare that the arrogant attitude and the ridiculous pretensions of the Spanish commander at Casa Blanca are again causing difficulties.

The Spanish officer insists that no European shall leave the city without an order signed by himself.

This officer, according to the special correspondents, recently broke into the Union club at Casa Blanca, excluded the members and installed himself in the building.

Child Starved to Death.

Akron, Ohio, Oct 9.—Michael Paravay, a Slav, living in Barberton, was arrested by Humane Officer Ackerman following the verdict of Coroner Davidson in the death of his four-year-old boy. The coroner declared that the father had been criminally neglectful, and that the child had literally starved to death.

May Succeed Tower.

New York, Oct. 9.—A Berlin dispatch to the Times states that it is reported in well informed quarters there that Secretary of State Bacon will be appointed as Ambassador Tower's successor. Mr. Tower has asked to be relieved as United States ambassador to Germany on account of his private business affairs.

ROADS ARE KICKING

Against Anti-Railroad Legislation of Various States.

RECENT RATE REDUCTIONS

Annual Reports of Three Leading Railroad Companies Deal With the Recent Legislative Measures Passed by Several States.

New York, Oct. 9.—Complaints against anti-railroad legislation of various states characterize the annual reports of three railroad companies which have just been issued.

The roads are the Atchison, Topeka and Santa Fe, the Wabash and the Chesapeake and Ohio. President Edward P. Ripley, of the Atchison, says of rate reductions:

"It is hoped and believed that the public will soon realize that its recent attitude toward railroad companies in general has not been just to their stockholder's and bondholders, and also that unless the confidence of investors in the security and stability of railway investments is restored, it will be impossible to obtain the additional railway facilities which are necessary to the development of the country."

President Ripley added that directors have suspended various extensive projects which were contemplated and will limit the company's capital expenditures to the completion of improvements to which the company is already committed.

President George W. Stevens, of the Chesapeake & Ohio says:

"It would seem to be to the interest of the communities and people served by its (railroad) lines that the revenues should not be lessened or the credit injured by further reducing rates that are now inadequate to meet the physical requirements of the property and yield the return which shareholders may rightfully and reasonably expect."

President Frederick A. Delano, of the Wabash, speaking of enactments of two-cent passenger laws of Iowa, Indiana, Illinois and Missouri says:

"While these laws have not been effective during the fiscal year and we cannot therefore determine accurately their results, it is clear that they must, if remaining in force, seriously affect our passenger revenues."

MAY GAIN WORLD'S RECORD.

Jas. R. Keene's Horses Have Already Won $377,090 This Year.

New York, Oct. 9—The lastest victory of James R. Keene's two-year-old Colin, in the matron stakes at Belmont Park Monday, brings the total earnings of Mr. Keene's horses this year up to $377,090, nearly $100,000 in excess of the American record for a single stable in one year and only a few hundred dollars behind the world's record of $377,554, held by the stable of the Duke of Portland.

As there are nearly six weeks of the New York season for racing left, the Keene stable is practically certain to gain the world's winning record this year.

Signs of Break in Ranks.

New York, Oct. —The proposition of Local No. 16 of New York of the Commercial Teleraphers' union to order the leased wire operators under its jurisdiction on strike on Wednesday was opposed by National President Small, who came here to attend a special meeting of the local in Clinton hall. It is now evident that Small and the leaders of the New York local are not pulling together. President Small declared most emphatically that neither he nor any of the other national officers would stand for the breaking of any contracts.

450 Are Now Registered.

Athens, Ga., Oct. 9.—The registration at the university passed the 450 mark Monday, which is more than sixty ahead of last session at this time. This makes certain an attendance of more than five hundred during the term, which is far beyond the largest attendance ever recorded at this institution.

COTTON CONGRESS.

Many Reforms and Changes May Be Made by Convention.

Atlanta, Oct. 9.—The recommendation of the sectional committee, which met Monday afternoon to discuss various technical features of the cotton business, if adopted by the present cotton congress and put into effect, will well nigh revolutionize the cotton industry.

The Egyptian form of cotton bale will be recommended to the cotton congress. Better covering than jute bagging is desired for cotton bales.

The other changes include baling at the cotton gin, marking o neach end of the bale, weight and garde; also more equitable tare and uniformity in bales is desired. The sending of representatives to Europe to sell direct to the spinner the contents of southern warehouses is a movement that is taking definite shape.

Stability of price is favored by the representative of every branch of the cotton industry except the delegates from the cotton exchanges. It is proposed to reduce the business of marketing cotton to such a science and by cementing closer relations between grower and spinner to make fluctuations in price subject alone to the laws of supply and demand.

ACCOUNTANT NAMED.

Books of Central Railway Will Be Investigated.

Savannah, Ga., Oct. 9.—Authentic information has been received here that an accountant had been named to thoroughly investigate the accounts of the Central Railway and Ocean Steamship companies, and that he would begin his work during the current week, in all probability.

The accountant was appointed by the trustees of the income bondholders who recently placed their holdings in the hands of the Central Trust company of New York, representing the seconds, and the Manhattan Trust company, representing the thirds.

There will be no difficulty in getting the books of the company, as, under the terms of the mortgage, this can be done on the application of one-third of the income stockholders of the company at any time.

Judge Orders Investigation.

Huntsville, Ala., Oct. 9.—Judge Tancred Betts, in his charge to the grand jury, in the law and equity court Monday directed the jury to investigate the charge of fraud in the city election of last April and find indictments against guilty parties if possible. He also charged the jury to investigate the alleged violation of the liquor dispensary laws by the clubs of this city. Judge Betts says he has no doubt that these laws are being violated and he thinks a speedy end should be put to such violation. The jury was also directed to break up gambling in Huntsville, if possible.

Comer to Call Extra Session

Birmingham, Ala., Oct. 9.—Governor B. B. Comer, who has just returned from the waterways' convention, announced in Birmingham Monday that the Alabama legislature will be convened in extra session Nov 7. The official call will be issued in the next few days. The governor has decided not to include statutory prohibition in the subjects to be considered. "The call will embrace nothing of state importance except further regulation of the railroads," said the governor.

Program Announced.

Augusta, Ga., Oct. 9.—The official program of the approaching convention of the Georgia division of the United Daughters of the Confederacy, which will be held in Augusta Oct. 30 to November 1, has been announced. It promises to be by far the most interesting program ever prepared for the Georgia convention and the names of many prominent Georgia women appear upon it.

Blew Out His Brains.

Huntsville, Ala., Oct. 9.—Henry Howard, an employee of a shooting gallery of this city, committed suicide at New Market Saturday night by swallowing an ounce of laudanum and then blowing out his brains with an old musket. Howard's nephew saw the act and tried to prevent it. Howard is said to have been drinking heavily.

2 DEAD; ONE MISSING

Fatal Accident Occurs on Northern Pacific Railroad.

TRAIN THEN CAUGHT ON FIRE

Entire Train Is Said To Have Been Destroyed—Failure of Air Brakes to Work on Heavy Grade Said To Have Caused the Wreck.

Seattle, Wash., Oct. 9.—Two tramps were killed, Fireman Ernest, of Tocoma, is missing and believed to be dead, Engineer Meyers, of San Francisco, and Brakeman Thomas are at the Hot Springs hospital seriously injured as a result of the wreck near Weston, on the main line of the Northern Pacific Monday night.

The train was an extra freight and was bound west, consisting of thirty-four cars of hay, grain and live stock, a caboose and an engine.

The entire train was destroyed, the wreckage catching fire soon after the smash up.

Trainmen declare that the failure of the airbrakes on a heavy grade caused the wreck.

TAKES IMPORTANT STEP.

Action of the Southern Cotton Association's Executive Committee.

Atlanta, Oct. 9.—President Harvie Jordan, of the Southern Cotton association, announced at the conclusion of a meeting of the executive board of the orginzation, the adoption of a new constitution and by-laws, which authorizes the granting of charters for the purpose of placing the association in a better position for the ends sought to be gained.

While reticent as to the details, he explained that by the adoption of a new constitution there is permissible improvements in methods of warehousing, baling, and financing the annual cotton crop in the hands of the growers.

He declared that the new constitution was largely educational, and was the result of long consideration and repeated conferences and not the result of the big cotton conference now in session.

WOMAN'S DEATH MYSTERIOUS.

Hospital Authorities Reticent About Giving Information.

Chicago, Oct. 9.—Anna Manata, 30 years old, said to be a member of a wealthy family of Indianapolis, Ind., died suddenly under mysterious circumstances at St. Bernard's hospital Monday.

Efforts on the part of the police to obtain information were repulsed by the hospital authorities.

A man who said he was the woman's brother-in-law, arrived shortly after her death and made arrangements for her funeral. He then disappeared suddenly. The body was shipped to Indianapolis.

The only definite information the police were able to obtain was from the records of the coroner's inquest at which a verdict of "death from alcoholism" was returned.

Miss Manata was said to be a woman of great beauty and evident culture.

Electric Cars Collide.

Montgomery, Ala., Oct. 9.—Two electric cars came together on Commerce, the main downtown street, on Monday morning and many were hurt. The impact broke out many of the windows and the flying glass found a number of victims. W. E. Perry was cut about the face and head. A negro woman had to be taken home in a carriage, bleeding profusely. Mr. James Champian and child were both cut and bruised and the two little children of Mrs. J. D. Goings were severey bruised and cut also.

In Memory of Davis.

Hopkinsville, Ky., Oct. 9.—The committee of the Jefferson Davis Home association was in Fairview Saturday and decided that the Davis birthplace shall be bought from a popular fund on June 3, 1908, the day of the Davis centennial, which will be elaborately celebrated.

INSTITUTE TO BE HELD AT ARCHER

Meeting Will Precede Session of Presbytery of Suwannee.

A BIG TIME IS EXPECTED

The People of Archer Are Manifesting a Great Deal of Interest, and Will Entertain Delegates in Hospitable Manner—Fine Program Arranged.

The Sabbath School Institute, which will be held under the auspices of the Presbytery of the Suwannee at Archer on Monday and Tuesday, October 14 and 15, promises to be one of the most successful affairs of the kind ever held in this section of the State. The good people of Archer, in anticipation of this meeting, which will precede the session of the Presbytery, are manifesting a great deal of interest, and will entertain all delegates to the institute.

Every school in the Presbytery is urged to be represented by at least one delegate, and more if possible, and all delegates are assured of a cordial welcome. Churches without schools are also invited to send representatives.

All persons attending the institute or Presbytery are advised to take regulation receipts for special rates on the certificate plan. An effort is being made, and will likely be successful, to secure a rate of one and one-third fare, plus 25 cents, for a minimum attendance of fifty.

The Program.

A very interesting program has been arranged for this institute, which is as follows:

Monday, 14—Evening Session.

Fifteen minutes devotional and song service.

Address of welcome—Rev. I. W. Waddell, D.D.

Response and address on select subject—Col. Christopher Matheson.

Roll-call and schools and enrollment of delegates.

Adjournment.

Tuesday, 15—Morning Session.

Thirty minutes devotional and song service.

Origin, History and Development of Sabbath School—Rev. Thos. P. Hay, D.D.

The Bible and the Sabbath School—Rev. L. R. Lynn.

The Sabbath School and the Church—Rev. W. E. Boggs, D.D.

The Sabbath School and the Family—Rev. J. F. Ford.

The Modern Sabbath School as a Missionary Agency—Rev. Paul F. Brown.

Afternoon Session.

Song service.

Organization and Equipment of the Sabbath School—Rev. C. H. Ferran.

Music in the Sabbath School—Mr. John T. Owen.

Use and Abuse of Lesson Helps—Rev. W. H. Dodge, D.D.

Question Box.

A word from each delegate.

Adjournment.

After each address opportunity will be afforded for general discussion.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's **Swamp-Root,** the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

MELROSE ITEMS.

Melrose, Oct. 9.—A jolly party of twenty or thirty went over to Earleton Friday evening on the Lenema and report having a fine time.

O. C. Husband has returned from a flying trip to Lakeland, Dunnellon, Ocala and Tampa in the interest of an invention in which he is a partner. He expects to leave shortly for New York on the same errand.

W. H. Lee left Tuesday evening for Lake City to place his son, Stetson, in the school.

Hardridge Lee has gone to Atlanta.

The streets are being put in order for the coming season, by order of the street committee. Let everybody join and clean up their sidewalks from sandspurs to weeds.

C. P. Huffman has gone to visit Mrs. C. W. Rogers at Live Oak for a few days.

The Clay county precinct of Melrose went dry, with no wet and 14 dry votes.

In the Mayor's Court.

John McCray, R. Ross, John Montgomery, Hardy Clark and Sam Reid, a quintette of hackmen who, in their ambitious desire to secure business, ventured over the "dead line" at the Seaboard Air Line depot, were arraigned before Mayor Thomas at the city court yesterday morning and fined $1 and costs each, which they promptly paid, although they intimate that it was "mighty expensive ambition."

William Hughes, another hackman, was arraigned upon a charge of "losing" a package belonging to one of his customers in the carriage, but the case was compromised by the payment of the cost of the contents of the package.

Hallie Parker and Priscilla Foster got to arguing on Tuesday as to the best-looking baby in town. They differed, with the result that they engaged in a fistic combat and hair-pulling contest. Both were arrested and compelled to undergo the embarrassment of appearing in court Wednesday morning. The former was fined $5 and costs, while the latter was released, after a mild reprimand for the indiscretion of fighting about anything, especially somebody else's baby.

HITCHCOCK IS ROUNDING UP

The Postmasters in the Interest of Cortelyou for Republican Presidential Nomination—Johnson Boom Not Confined to Minnesota.

Special Correspondence The Daily Sun.

Washington, D. C., Oct. 9.—With the President away on politics and hunting bent, and Root and Taft, the two chief members of the cabinet, in foreign parts, and the other members of the administration absent from their departments on politics or private business, the Government of the country is running with the Republican understrappers at the helm. This has been pretty much the case all the summer, since the President left early in June. No other administration has such a record for absenteeism. Nor has any other administration spent so much time on partisan politics and interference with local squabbles. Every kind of excuse has been made to send out the cabinet officials and their assistants to do the preliminary work to round up delegates to the next Republican National Convention. Secretary Taft has made speeches in all the States where he could do any good; Secretary Metcalf has been for months in California and the other Pacific States; Secretary Cortelyou has been in New York, in close touch with Wall Street and the New York politicians; Secretary Bonaparte has been rusticating in Canada and his Maryland country home, and incidentally has helped to muddle up Republican prospects in Maryland; Secretary Meyer has been boosting up Senator Lodge for control of the Massachusetts delegates; Secretary Garfield, besides spending the summer in the West, ostensibly on Government business, but really on politics, then took another month at home in Cleveland to help fix up the proposed defeat of Tom Johnson for mayor by the President's favorite, Congressman Burton; Secretary Wilson has been traveling all over the West at Government expense, and if the truth were known the other cabinet members have not paid out much from their private purses on their political junkets.

Assisant-Postmaster-General Hitchcock has been rounding up the postmasters and instructing them to secure delegates to the Republican Convention favorable to Secretary Cortelyou. Pinchot of the Forestry Bureau, member of the "Tennis Cabinet," has been in the Rocky Mountain States trying to overcome the opposition developed there on account of the enlargement of the forest reserves. The political expeditions of many others might be mentioned who have put in more time for partisan purposes than for what they are paid to do. Booker Washington and other administration negro leaders have been attempting to turn the current of darkey voters away from Foraker, but with no effect, outside of the negro office holders.

My! my! but it has been a strenuous summer, and after all the result looks quite doubtful for the administration, unless the office holders can induce the President to run for a third term, for they at heart fear a new deal with another candidate. The Taft men are now accusing the Cortelyou boomers of using the patronage of the United States Treasury and the Postoffice Department to force his nomination, and as far as the Southern States are concerned they have no doubt rounded up the office holders, who compose the Republican party there, leaving out the darkey contingent.

The Democrats, while they have not been so active as their Republican friends, are much encouraged by the Republican divisions and factional fights, but are still at sea about who will lead the party. The trend of events has led to a thorough investigation of the merits of possible candidates and their reputed strength in close and doubtful Northern States which it is feared Mr. Bryan would not carry, if again nominated.

The boom for Lieutenant-Governor Chanler of New York is predicated on his strength in his own State, but there is a feeling that eventually he will be only seriously considered for second place on the ticket.

Governor Johnson of Minnesota seems to be forging ahead as a promising candidate, and this has been strengthened by reports from Minnesota which undoubtedly will send a Johnson delegation to the Democratic National Convention. The Mankato Daily Review of that State, one of the oldest and most reliable Democratic newspapers, said a few days ago: "Senator Works of Mankato states that Governor Johnson will be the next Democratic candidate for President. He believes that Mr. Bryan will not stand in Johnson's way. This statement is believed to have a particular significance, coming from Senator Works at this time, as Bryan was a guest at Mr. Works' home in Mankato about a week ago."

That the Johnson boom is not confined to Minnesota, but is being carefully canvassed in the South, is confirmed by T. H. Bass of Beaumont, Texas, a prominent Democrat of the Lone Star State. He has been in Washington during the past few days, and upon being interviewed said: "Our people would very much like to support Senator Culberson for the Democratic nomination, but he is obdurate against the use of his name in that connection. If the delegates composing the next Democratic National Convention really want to win, they will work to nominate Governor Johnson of Minnesota, and for Vice-President Lieutenant-Governor Chanler of New York. I have paid some attention to the record and character of Governor Johnson. There has been no more meritorious rise from a lowly station in all our history. I believe he could carry not only Minnesota, but several other Northwestern States. Along with the wave his candidacy would create, the Democrats might gather in several Senators and Representatives. The Governor would make inroads on Republican territory where no other Democrat could make the slightest impression."

Two months more and the Sixtieth Congress will convene and the issues will be discussed which divide the parties. There has been no more important session of Congress, as far as party politics is concerned, for the past ten years, at least. The Republican leaders seem determined to "stand pat" on the tariff, by refusing to consider the revision of even the most trust-protecting schedules. It is also expected that no effort will be made to strengthen the railroad rate law, nor do they now intend to pass any anti-trust legislation. Speaker Cannon, for he will certainly be re-elected, designs to pass the appropriation bills and adjourn at the earliest date possible. All reforms are to be postponed till after election—that is, revision of some kind of the tariff is to be promised and assurance given of control of the trusts and corporations, but as such pledges have often been made before other Presidential campaigns, their fullfillment can be taken with due allowance and the needs of corporation contributions for the campaign fund.

NOTES FROM BELL.

Bell, Oct. 9.—O. O. Thomas and Jones Bryant have gone to Newberry on a pleasure attraction.

Mrs. Colson of Gainesville is visiting her daughter, Mrs. S. O. Barron. They have gone this week visiting relatives at Jennings Lake and Trenton.

Mr. and Mrs. Snyder have a very sick baby. We are glad to know the child is improving.

Drs. J. P. Philpot and Nathan Roberts left on the 5th inst. for Atlanta to enter the Surgical Institute. Success to the boys.

The services at Nebo, which began Thursday, ending Sunday evening, were instructive and elevating, conducted by Rev. L. R. Thomas, pastor in charge, assisted by Rev. Joe Bell, Jeff Sims and Wilson Griffin. Crowded congregations and well spread dinners and everyone enjoyedt he occasion.

Rev. L. R. Thomas will commence a protracted service here Saturday night before the third Sunday, Saturday, October 19th.

Joe Rivers', colored, house was consumed by fire Saturday. Household furniture was saved but the kitchen furniture was lost.

WHO USES HYOMEI?

The Best People in Gainesville, Say J. W. McCollum & Co.—Guaranteed in Catarrhal Troubles.

No other remedy or treatment for catarrh has ever been as popular or made so many remarkable cures in Gainesville as Hyomei.

The best people attest its curative virtues, say J. W. McCollum & Co., the local agents. The fair way in which Hyomei was sold, to refund the money unless it gives satisfaction, was the best proof when it was introduced that it possessed unusual curative powers. J. W. McCollum & Co. took all the risk of the treatment giving satisfaction, and left it to the purchasers to be the judge.

Later, when Hyomei was used and recommended by our well-known physicians and business men and their wives as a treatment that absolutely cured catarrh, no matter how serious or long standing, the sales rapidly grew and today there is no other remedy in J. W. McCollum & Co.'s stock that has such a large and staple sale.

The first breath of Hyomei's healing air kills all catarrhal poison.

Try Hyomei today on J. W. McCollum & Co's. offer to refund the money if the treatment does not give you satisfaction.

That Tired Feeling.

If you are languid, depressed, incapable for work, it indicates that your liver is out of order. Herbine will assist nature to throw off headaches, rheumatism and ailments akin to nervousness and restore the energies and vitality of sound and perfect health. J. J. Hubbard, Temple, Texas, writes, "I have used Herbine for the past two years. It has done me more good than all the doctors. It is the best medicine ever made for chills and fever." 50c. Sold by W. M. Big Engine Explodes.

Marietta, Ga., Oct. 9.—The big engine that runs the paper machine at the Georgia Manufacturing Public Service company blew up Sunday evening and was completely destroyed. The roof of that part of the building where the engine was located was torn into bits, and several pieces of the engine were thrown a quarter of a mile from the mills. The damage done will amount to close to $10,000, and will cause the paper machine to shut down.

S.S.S. REMOVES BLOOD HUMORS

When the blood is pure and healthy the skin will be soft, smooth and free from eruptions, but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease. The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry, scaly skin affections as Tetter, Psoriasis, and kindred troubles. The treatment of skin troubles with salves, washes, lotions, etc. is not along the right line. True, such treatment relieves some of the itching and discomfort and aids in keeping the skin clear, but it does not reach the real cause of the trouble, which are humors in the blood, and it can therefore have no real curative effect on these skin affections. S. S. S., a gentle acting and perfect blood purifier, is the best and quickest treatment. It goes down into the blood and removes the humors, fiery acids and poisons from the circulation, cools the overheated blood, and by sending a fresh stream of nourishing blood to the skin permanently cures skin diseases of every character. S. S. S. is made entirely of health producing roots, herbs and barks, and is an absolutely safe remedy for young or old. S. S. S. cures Eczema, Acne, Salt Rheum, Tetter, Psoriasis, and all other disagreeable and unsightly eruptions of the skin. H. McCreary, for sexton, etc., $35.

The marshal reported $131.75, fines and fees for impounding cattle.

The collector reported $362.75 license collected, and $83 water rents collected.

Alderman Bunch moved that the chairman of the sanitary committee be instructed to examine the cess pool in the rear of the United States land office, and to report the evil existing therefrom, should any be found. The motion was carried. Alderman Bunch moved that B. F. Miller be appointed inspector of plumbing for one month, to be paid $2 for each line inspected that connected with sewer. Motion was carried.

Alderman Bunch moved that the city attorney be instructed to draw an ordinance allowing property owners around whose property improvements are being made, to pay one-third cash, one-third in one year, and the remaining one-third in two years, with six per cent interest on last two payments. Motion carried.

Alderman Bunch moved that the attorney draw ordinance for city certificates and resolution as contained in request of Board of Public Works referred to him. Motion carried.

The communication of Dr. Andrew Sledd to the mayor regarding the cattle running at large around the University, and between here and the University, was referred back to the mayor, as there was an ordinance covering same.

The petition for a light at the intersection of Boundary and West Main streets was referred to the light committe.

Alderman Bunch moved that the recommendation of B. F. Miller, superintendent of water works, contained in his communication bearing date of October 1, regarding the tapping of water mains and hire of extra man, be adopted. Motion carried.

Alderman Bunch moved that the charman of the street committee confer with the Eddins Manufacturing Company, and see if his bid for bridge included abuttments; if not, how much would the extra cost be for same? Motion carried.

Complaint as to condition of the barracks lot was upon motion of Alderman Bunch referred to the street committee, to have the same cleared of debris and put in shape within thirty days.

In the matter of the claim of Geo. R. Ellis and H. L. Phifer for one-third cost of curbing and gutter around their premises, was referred to the street committee to investigate and report.

Alderman Bunch moved that the property owners on Alachua avenue and Liberty street be relieved from any assessment on the wall over Sweetwater branch by the Board of Public Works. Motion carried.

Alderman Mixson moved that the marshal be allowed $10 per month for horse feed. Motion carried.

Alderman Bunch moved to adjourn until Monday evening, October 14, which was carried.

Do You Open Your Mouth

Like a young bird and gulp down whatever food or medicine may be offered you? Or, do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people now-a-days insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to *insist* upon such knowledge. So he publishes, broadcast and on each bottle-wrapper, what his medicines are made of and verifies it under oath. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated.

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say *for yourself* by sending a postal card request for a *free* booklet of extracts from the leading authorities, to Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.

Editor Thompson of The Key West Citizen was recently assaulted by a merchant whose action in returning his property to the tax collector for payment of the license tax he had criticised. The editor says, however, that though he may be murdered on account of the policy of his paper the latter will live after him and pursue the same policy.

Mr. Chas. Francis of Interlachen, one of the best known authorities on orange culture in this section, gives as the best remedy for scale and white fly pests on all kinds of citrus trees the following, which he claims is the best thing he ever tried: Five pounds of Gold Dust washing powder to a barrel (kerosene) of water, and spray the trees as with ordinary insect solution.—Palatka Times-Herald.

The Jacksonville Metropolis calls attention to an important law as follows: "Attention is being directed to the new State law prohibiting all city and county boards from purchasing supplies from members or from firms in which any member of the purchasing board is interested, directly or indirectly. An examination of bills presented for payment shows in some instances that the law is being violated. Beware!"

It was a great mistake on the part of the City Council in not constructing brick gutters on the west side of the square when this work was being done in other sections of the city, and when Ex-Alderman Benson was chairman of the street committee, whose work in this line, as in all street work under his supervision, was a credit to him. What he did was done in a substantial manner, which cannot be said of much other work on the streets. Until a brick gutter is constructed on the west side work on that part of West Main street will prove a useless expenditure of money, as evidenced by the destruction caused by the recent rains.

Mr. Hearst is about to organize his Independence League into a National party, and has decided that hereafter the League will have nothing to do with the two older parties. This determination is said to have been taken because Mr. Bryan refused to support Mr Hearst for the nomination for President at the last National Democratic Convention, when he voted for Senator Cockrell of Missouri. It is also reported that in the event of Mr. Bryan's nomination for President the League will make a nomination on purpose to defeat Mr. Bryan. How Democrats will view this will develop later, but that many will drop Mr. Hearst's newspapers as organs of Democracy is certain.

TAKE CARE OF THE BOYS.

The Live Oak Democrat says: "It is a hard problem to raise a boy right in this age of the world, and unless he has a home made attractive to him by his parents, there are more chances that he will go to the bad than otherwise. One of the sure, swift roads to ruin for the lad is loafing around the streets after night, for it is then that the worst influences of the community are abroad and are lying in wait for that very "kid." If the home government fails through the neglect or indifference of the parents, then it is the duty of the town government, for the common good, to do some regulating on its own account and at least see that the youngsters are kept off the streets after a certain hour at night. DeFuniak Springs was worried with these young loafers graduating into rowdies until it got to be intolerable, and the town council enacted an ordinance to break up the business. It may be necessary for other towns in Florida to have some such law and it is well to know what the DeFuniak ordinance is. It provides that it shall be unlawful for any person under the age of 16 years to be upon the public highways or at public places of said town between the hours of 8 o'clock p. m. and 5 o'clock a. m., unless such person has with him the written consent of, or is in the immediate company of his parent or guardian, or in the company of someone over the age of 21 years, by the consent of such parent or guardian previously given."

HOBBLE FEDERAL JUDGES.

The recent decision of Judge Lochren, of the United States circuit court, enjoining the officers of the State of Minnesota from enforcing the law of that State in regard to freight rates, adds a new chapter to the usurpation of Federal courts. It will no doubt have an effect contrary to what was intended by it. In fact, it will result in the introduction of bills at the next session of Congress for circumscribing the powers of Federal courts by depriving them of all authority to issue writs of injunction, habeas corpus and prohibition in cases wherein the law of a State is called in question. And it is not unlikely that such a measure may be enacted into law. In 1802 the Democrats, at Jefferson's suggestion, abolished the circuit court of the United States created by the 6th Congress in February, 1801; and that precedent is receiving the attention of all Congressmen who favor the preservation of the reserve rights of the States and trial by jury. The next great struggle in this country will be like the first—a struggle against the usurpation of Federal judges, whom Jefferson so aptly described as the sappers and miners of despotism.

Anent the recent trial in St. Lucie county, wherein Rawlins was charged with the murder of Col. McCarty, a prominent attorney of Fort Pierce, and the jury returned a verdict only for manslaughter, The Melbourne Times truly says: "When murder is proven to be manslaughter, and the insanity plea stands so prominently between the murderer and the gallows, we might do away with the gallows arrangement altogether." The murder of Col. McCarty, from published reports, was cold-blooded, and the verdict is said to have been as much of a surprise to the attorneys for the defense as it was to the prosecution. The press of the county is unanimous in condemning the verdict.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. REPUBLICAN VOTERS REBELLED.

It looks as if Teddy were losing ground in his own State. At the recent primaries in Brooklyn, Mr. Roberts, President Roosevelt's postmaster of Brooklyn, was defeated, and Robert A. Sharkey, whom President Roosevelt refused to reappoint as naval officer of the port of New York, won in his district. There was a good deal of clatter on the part of Woodruff and Roberts and Sharkey as to how the result was brought about. Chairman Woodruff issued a statement declaring that he had not interfered in the Sharkey district. The Sharkey people declared that he had. This is a pointer showing what may be expected in the Johnson-Burton fight in Cleveland, Ohio. The people almost always rebel against dictation from Federal officers, great or small.

Prohibition didn't win out in Pensacola, but it scared the city government into a system of saloon regulation that will take away some of the bad features of the traffic. The new city ordinance on the subject practically abolishes the dives, confines the saloons to a limited area and further enacts that no liquor shall be sold or given to any intoxicated person, and no such person shall be allowed to remain in the premises; saloons shall close at 9 p. m., and remain closed until 5 a. m.; no tables, chairs, or lounging places are permitted, and screens are not allowed to obstruct view from the street, of the bar or bar-room; separate bars for white and colored patrons. Penalty for violation of the ordinance is a fine not exceeding $500 or imprisonment not exceeding 60 days or both, at the discretion of the recorder.—Live Oak Democrat.

What will the next Congress do for and with sugar? asks The Washington Post. Those who know Uncle Joe and Vice-President Fairbanks assume that Congress will pay for it, and mix it with mint, lemon, ice and a little Old Crow, as usual.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

EPISCOPAL CONVENTION.

Bishops Provide for Two Episcopal Divisions in Georgia.

Richmond, Va., Oct. 9.—Five matters of interest were discussed during the fourth day's session of the general convention of the Episcopal church Monday. Four of these took place in the house of deputies. The matter of greatest importance was the discussion relative to the reduction in the number of representatives from each diocese of the church. At the present time there are sixty-one dioceses with a representation of 600. An earnest effort has been made by the delegates from New York and Massachusetts to reduce the representation to three clerical and three lay delegates from each diocese, but this was defeated.

The second matter of interest occurred when a resolution was made by Dr. Huntington, of New York, to practically change the name of the church to read "American Church."

Mr. Ole of southern Virginia, led the fight against it, pleading for a delay, which Mr. Huntington granted with the understanding that the matter should be brouht up for consideration hereafter.

The third matter of interest was the passage of a joint resolution which recognizedthediocese of Duluth, and the fourth resolution which practically grants permission to the diocese of Georgia to form a new diocese which it is said would be called the diocese of Atlanta.

BOXES OF BUMBLE BEES.

They Will Be Used in Cross Fertilization of Plants in Philippines.

Chicago, Oct. 9—A dispatch to the Tribune from Washington says:

In response to a rush order cabled from the Philippines, two cigar boxes filled with bumble bees are hurrying across the continent bound for the Philippine Islands.

The Philippine specialists in the agricultural department have been making exhaustive experiments in Luson in the cross-fertilization of certain plants. Repeated tests with the common or busy bee showed it to be unequal to the task, but complete success crowned the efforts of the scientists when they tried the bumble bees.

As the season in which the bumble bee can make himself useful in the fertilization is rapidly nearing an end in the Philippines, the experts Monday cabled the department to rush the shipment. So the bees started, provided with every comfort the ingenuity of the agricultural department could devise.

MARY J. HOLMES DEAD.

Well Known Authoress—2,000,000 Copies of Her Books Sold.

Rochester, Oct. 9—Mrs. Mary Jane Holmes, the well known authoress, died Sunday morning at her home in Brockport, in her seventy-ninth year. She was taken ill last week in Albany while on her way from Oak Bluffs, Mass., where she spent the summer. She improved a little and was able to continue to her home, but another repalse came.

Mrs. Mary Jane Holmes was born in Brookfield, Mass., on the farm of her father, Preston Hawes. She entered the village school when she was 3 years old and is said to have been making progress in grammar at 6. Her first article was written and published when she was 15 years of age.

The statement has been published that Mrs. Holmes next to E. P. Roe, was the most popular of American authors. More than 2,000,000 copies of her books have been sold.

Slashed Body With Knives.

Atlanta, Oct. 9.—Mrs. Dora Kell, 65 years old, in a fit of despondency on Monday afternoon, while lying on a bed at her residence, 90 Courtland street, slashed her abdomen and breast with two table knives in an attempt to end her life. She was taken to the Grady hospital in an unconscious condition, and placed on the operating table, Dr. Ellis attending. Mrs. Kell has been in America about four years, coming here from Russia. She has, nearly all her life, been a constant sufferer and a nervous wreck. During the last eighteen months about ten of Atlanta's best known physicians have been treating her, but no change in her condition could be noticed. There are grave doubts as to whether Mrs. Kell will survive her injuries.

Must Pay More Board.

West Springfield, Mass., Oct. 9—West Springfield boarding house mistresses met here Monday night and voted to form a boarding-house mistress' union. The union decided to raise the price of board from $5 to $6 a week, and to put the new rate into effect at once. The rise in the price of food stuffs is given as the cause of the raise in the boarding rates.

BIG BATTLESHIP AGROUND.

Kentucky Sticks Her Nose In Mud Off Lambert Point.

Norfolk, Va., Oct. 9.—The United States battleship Kentucky, which passed in the Virginia capes late on Monday from the north, on her way to the Norfolk navy yard for repairs prior to the sailing of Admiral Evan's battleship fleet on its long voyage around Cape Horn for the Pacific coast, grounded off Lamberth Point Tuesday while proceeding up the Elizabeth river from Hampton roads enroute to the navy yard.

The Kentucky with her nose stuck in the soft mud off the Lamberth Point flats lies almost directly abreast the Norfolk and Western Warehouse No. 2, near long coal piers. Tugs went immediately to the assistance of the battleship. She was in no immediate danger, and was expected to be floated at high tide without material injury to her bottom.

DOGS YELP IN CANEBRAKE.

President and Party Are Now In Chase for Big Game.

Stamboul, La., Oct. 8.—Holt Collier, the champion Mississippi negro bear hunter, reported at the president's camp early Monday as ready for business in the canebrake. He came down from Greensville on a boat and brought with him a fine kennel of dogs, all of which were yelping as if ready for work in the jungle.

The first report of a killing since the arrival of the presidential party was received Monday.

Ben Lilly, Collier's white rival, succeeded in killing a fine buck late Saturday afternoon soon after he made his appearance, consequently the president dined sumptuously on a choice cut of venison.

Robbed Official of $35,000.

Pell City, Ala., Oct. 8.—A. S. Williamson, the county treasurer, was held up at the point of a revolver in the hands of one of a party of four highwaymen and robbed of $35,000 on Monday. Mr. Williamson was walking along a deserted street, when he was accosted by four men, one of whom asked him the time. As he went to get out his watch he suddenly found himself looking into the barrel of a Colt's 44 in the hands of one of the party. "Throw up your hands," said the man with the gun. Mr. Williamson complied with the request and the other three men went through him, taking a large wallet containing $35,000.

Napoleon Bonaparte

Showed, at the battle of Austerlitz, he was the greatest leader in the world. Ballard's Snow Liniment has shown the public it is the best liniment in the world. A quick cure for rheumatism, sprains, burns, vuts, etc. A. C. Pitts, Rodessa, La., says: "I use Ballard's Snow Liniment in my family and find it unexcelled for sore chest, headache, corns, in fact for anything that can be reached by a liniment." Sold by W. M. Johnson.

Boy Falls Down Elevator Shaft.

Atlanta, Oct. 9.—Brooks Johnson, 11 years of age, who carries a route for the Atlanta Journal, lies at the point of death at the Grady hospital as the result of a fall of two stories down the freight elevator shaft of the Atlanta Journal. He has concussion of the brain, a contusion on the right temple and a number of bad bruises. Strangely enough, no bones were broken in the fall.

Will Retaliate on Preachers.

Topeka, Kans., Oct. 9.—A dozen Topeka ministers preached against the Sunday theater. An ordinance prohibiting the employment of labor on Sunday will be enforced by City Attorney Drennening against the theaters. The theaters will retaliate by filing similar suits against janitors, sextons and preachers, alleging that they are all employed on Sunday in violation of this ordinance.

Motor Car Caused Explosion.

Birmingham, Ala, Oct. 9.—Deep down in No. 5 mine of the Tennessee Coal and Iron company at Pratt City Monday a motor car struck a sixty-pound keg of blasting powder and an explosion followed. Gus Burton and Robert Cunningham, white miners, were terribly burned and will probably die. Will Cook, a negro miner, was also severely injured.

Lunches In Germany.

I was told at 8:30 it was time for luncheon, writes an American tinsmith working in Leipzig. On stating that I did not care to eat, he told me that it would be better if I did no work, so I sat down for half an hour and watched the others. At noon we had an hour and a half and at 4 o'clock fifteen minutes for lunch.

It may be of interest to some readers to know what the German eats. For his first breakfast he generally has a milk roll and a cup of coffee. The second breakfast is almost always a slice of bread with lard or goose oil, a piece of sausage or cheese and a bottle of beer. For dinner he has two slices of bread as above, with a herring or large green pickle, cheese or sausage and another bottle of beer. For lunch another bottle of beer and a milk roll. For supper soup and potatoes.

This is the general variety of foods we had for the four months I worked in that shop, and they had it day in and day out.—New York World.

Why She Laughed.

Nell—She always laughs at him so; and yet he isn't at all humorous. Belle—No, but I believe she heard that he had remarked once that he admired her teeth.

MRS. NEWCOMB SUES FOR HUSBAND'S LIFE

Former Gainesville Girl Wants Damages from Slayer.

SAYS $100,000 WILL SATISFY HER

Widow of the Man Killed by Thomas W. Troy Files Suit for Large Sum Against Troy, and the Outcome Will Be Watched With Interest.

Mrs. Mary Agnes Newcomb of Miami, formerly Miss Agnes Sligh of this city, has entered suit against Thomas W. Troy, a wealthy lumberman, for the killing of her husband at West Palm Beach a few months ago, and the following report, taken from The Times-Union, will prove of interest to our readers, since the plaintiff in the case is so well known here:

"Mary Agnes Newcomb has begun suit for $100,000 damages against Thomas W. Troy, who will be tried this week in Miami for the alleged murder of the husband of the plaintiff.

"Mrs. Newcomb is suing for damages for her husband's death, the case being styled one of action on the case for wrongful death. The plaintiff is represented by Major Alexander St. Clair-Abrams.

"The husband of the complainant was killed at West Palm Beach a few months ago, and the defense of Troy, who was arrested immediately after the homicide, is based on the alleged threats made by Newcomb against his life.

"Troy is reputed to be a wealthy man, formerly residing at Macon, Ga. He had just returned from a trip to South America when the shooting that resulted in the death of Newcomb and the charge of murder occurred.

Story of Case.

"The story of the homicide, as the facts thus far have come to light and as reported at the time, may be briefly summarized as follows:

"He was eating a lunch and drinking in a bar and lunch room at West Palm Beach, when Newcomb entered.

"The men had had some difficulty previously and words were passed between them.

"It is alleged that Newcomb threatened Troy, and then dared the latter to shoot him.

"Troy, so the story is told by witnesses, walked to his suit case, took out a revolver and fired several shots, some of which struck Newcomb and his death resulted.

"Troy was arrested and after a preliminary hearing was released on a $25,000 bond raised by friends in Dade county.

"The case excited unusual interest and the criminal proceedings this week are expected to draw large crowds.

"The widow of the dead man now brings a civil action against the man on trial for the slaying of her husband and asks that she be allowed damages in the sum of $100,000."

NO FEVER ON ISTHMUS.

U. S. Marine Hospital Inspector So Makes Report.

New Orleans, La., Oct. 9.—The most striking absence of yellow fever in Central American countries in several years was the gist of a report made public by Dr. John N. Thomas, United States marine hospital service inspector, just returned from an inspection of Central America.

"I believe I can say positively," he said, "that there has not been a case of yellow pack in any Central American country except Guatemala this year, at least in eastern ports. In Panama there has not been a single case of genuine yellow fever and I do not believe there has been a case on the entire isthmus."

Tragedy Near Commerce, Ga.

Commerce, Ga., Oct. 9.—Andrew Williams was shot and almost instantly killed at the home of his cousin, Lonnie William, near Union church, in Madison county, Sunday evening. It is said that the shot was fired by Mrs. Williams, wife of Lonnie Williams. Andrew and Lonnie had been on unfriendly terms for quite awhile, and Andrew went to the home of Lonnie Sunday evening when the unpleasantness was renewed. The two neighbors and cousins engaged in a fight, during which, it is said, that Mrs. Lonnie Williams secured a shotgun and fired at Andrew, the effects of which produced death.

Alabaman 100 Years Old

Eufaula, Ala., Oct. 9.—Old Uncle Charles Sheppard, who until a few years ago resided near Blue Springs, in this county, came up from Dothan last week and enjoyed a celebration of his one hundredth anniversary in a birthday dinner at the home of his brother, Henry Sheppard, of the former place. The old gentleman is quite feeble and his eyes are so dimmed that he is only able to discern objects, yet he is hale and hearty and chats pleasantly with his friends. He is also able to journey about his premises unaided and has promise of other anniversaries.

Queen's Jewels Sold.

Brussels, Oct. 8—An auctioneer has been commissioned to sell the linens, jewels, souvenirs, ,etc. ,belonging to the late queen of Belgium, the proceeds to be devoted to paying debts of her daughter, Princess Louise, who was divorced last year by Prince Jhillip of Saxe-Coburg-Gotha. Among the things to be sold is a diadem presented to the queen by the people of Belgium on the occasion of her silver wedding anniversary. The diadem cost $30,000.

Restored to Good Standing.

New York, Octfl 8.—Announcement is made that J. J. McCafferty, a well known horse owner and trainer and one of the picturesque figures of the turf, wil be restored to good standing in racing affairs through the clemency of Thomas H. Williams, president of the California Jockey club, in withdrawing a decison ruling McCafferty off the turf.

Killed Wife and Fled.

Clarksville, Tenn., Oct. 9.—Jack Allen shot and killed his wife in this county Saturday. The couple had separated. Allen shot at his wife 15 times, nine of the shots taking effect. The murderer escaped into the state of Kentucky.

Baby Was Killed by Train.

Athens, Ga., Oct 9.—The sixteen-months-old child of Lee Anderson was knocked from the track and instantly killed by a Georgia railroad passenger engine Monday. The accident happened at a crossing four miles from Athens.

Kingston, Jamaica, Oct. 9.—General Alexis Nord, president of the Republic of Hayti, is so dangerously ill at Puerto Principe that his life is despaired of, according to private advices received here.

The Builders.

"The Egyptians were the builders," said a contractor curiously. "No wonder their monuments will endure forever. Labor was nothing to them. As you would spend a cent on a newspaper so would an Egyptian king put 10,000 men to work upon a temple. Labor, you see, cost nothing. A striking example of the Egyptian prodigality of labor lies in this fact: No less than 2,000 men were employed for three years in carrying a single stone, a stone of unexampled size, from Elephantine to Sais."

THE PUBLIC IS PLEASED.

Everyone is Delighted at Appointment of Prof. W. S. Cawthon.

Announcement was made in The Sun of Tuesday morning that Superintendent Dr. J. L. Kelley had appointed Prof. W. S. Cawthon, of the University of Florida, and one of the most capable educators of the State, to the principalship of the Gainesville Graded and High School.

This announcement seemed to please everyone interested in the welfare of the school, as Prof. Cawthon is a man well known in this section, having been connected with the University ever since the institution was established here.

Prof. Cawthon is very much pleased over the appointment, as he has expressed himself. He is going into the work with a vigor and earnestness which must mean success, and pays a high compliment to his associates by saying that no better can be found anywhere.

The school will open in regular order on Monday morning, and both faculty and students will enter the work with a determination to make the most successful and beneficial term in the history of the institution. Gainesville has the advantage of having a most energetic and ambitious lot of pupils, and as the faculty is also ambitious and energetic, we may expect a gratifying success of the coming term.

"I have studied the personnel of the faculty well," remarked Prof. Cawthon to a Sun representative Tuesday, "and I can flatter myself in the assertion that I believe I have the best all-round faculty in the State. They are all good, conscientious, hard workers of ability, and there is no reason why we should not come out at the end of the season with flying colors. I am going to work in harmony with the faculty and students, and there is no reason that we will not all work in harmony together."

NEWS FROM JONESVILLE.

Jonesville, Oct. 9.—Miss Lizzie Griffin is visiting relatives at Alachua.

Miss Estella Miller has gone to Judson to clerk for her uncle, Mr. Tucker. We wish her much success.

W. H. Pickett has gone to Jefferson City, Tenn., to enter college.

Miss Irene Miller visited at the home of T. R. Pickett last Sunday.

Messrs. J. E. Bryant and O. O. Thomas of Bell made a "business" trip here Sunday.

Mrs. John C. Fortson of Newberry is visiting her mother, Mrs. W. J. Hamilton.

It will be remembered that on next fourth Sunday we expect to start a protracted meeting.

W. L. Pickett's baby is very ill, but we hope it will soon be restored to usual good health.

A number of folks from here, Newberry and Archer enjoyed a fish fry on Barrel Pond Saturday.

Mr. and Mrs. M. N. Sanchez of Bronson are here visiting the latter's parents, Mr. and Mrs. H. A. Pickett.

MELROSE ITEMS.

Melrose, Oct. 9.—A jolly party of twenty or thirty went over to Earleton Friday evening on the Lenema and report having a fine time.

O. C. Husband has returned from a flying trip to Lakeland, Dunnellon, Ocala and Tampa in the interest of an invention in which he is a partner. He expects to leave shortly for New York on the same errand.

W. H. Lee left Tuesday evening for Lake City to place his son, Stetson, in the school.

Hardridge Lee has gone to Atlanta.

The streets are being put in order for the coming season, by order of the street committee. Let everybody join and clean up their sidewalks from sandspurs to weeds.

C. P. Huffman has gone to visit Mrs. C. W. Rogers at Live Oak for a few days.

The Clay county precinct of Melrose went dry, with no wet and 14 dry votes.

A DELIGHTFUL OCCASION.

Reception Tendered Students and Members Experiment Station.

Very delightful was the reception tendered to the students of the University and the members of the Experiment Station staff by the president and faculty Tuesday. The occasion was made much more enjoyable because of the musical selections rendered by some of the best performers in the city. A violin duet by Miss Hampton and Miss Richards, accompanied by Mrs. B. F. Hampton, on the piano, opened the program. This was followed, in the order given, by a piano solo by Mrs. Karl Schmidt; a vocal solo, accompanied by Misses Hampton and Richards on the violin and by Mrs. B. F. Hampton at the piano, by student Roy Corbett; a piano solo by Miss Ida Burkhim; a four-hand selection on the piano by the Misses Fennell; a violin duet by Miss Christine Richards and Dr. Pearce, accompanied by Miss Fennell; a vocal duet by Lieut. Ball and Mr. Graham.

This music was greatly enjoyed by all. At its conclusion the doors of the mess-hall were thrown open. The room had been tastily decorated with bunting in the college colors, and plants from the Experiment Station. The attractiveness of the room was due to the the excellent taste of the matron, Mrs. Swanson.

After a few minutes of general conversation, refreshments were served. These consisted of cream, cake and fruit punch, with special provision of fruits for the football squad, who were not allowed to partake of the other dainties.

NEW LAW FIRM.

Congressman Clark and Thos. W. Fielding Form a Partnership.

A new law firm has been organized in this city, Congressman Frank Clark of this city and Attorney Thomas W. Fielding of Starke having associated themselves together. The new firm will have offices in the elegant new office building of the Gainesville National Bank, and will open for the transaction of business at once.

Col. Clark's reputation as a lawyer, not only in this section, but throughout the State, is too well known for comment. His partner, Col. Fielding, is a young man also well known throughout the country, especially this section of the State. He is a man of exceptional professional ability, and is bound to make his mark in the professional field. He is yet a young man, but his ability would do credit to one much more advanced in years.

The people and bar of Gainesville will gladly welcome Col. Fielding as a citizen of the city, and predict for the new firm a great success.

NOTES FROM BELL.

Bell, Oct. 9.—O. O. Thomas and Jones Bryant have gone to Newberry on a pleasure attraction.

Mrs. Colson of Gainesville is visiting her daughter, Mrs. S. O. Barron. They have gone this week visiting relatives at Jennings, Lake and Trenton.

Mr. and Mrs. Snyder have a very sick baby. We are glad to know the child is improving.

Drs. J. P. Philpot and Nathan Roberts left on the 5th inst. for Atlanta to enter the Surgical Institute. Success to the boys.

The services at Nebo, which began Thursday, ending Sunday evening, were instructive and elevating, conducted by Rev. L. R. Thomas, pastor in charge, assisted by Rev. Joe Hall, Jeff Sims and Wilson Griffin. Crowded congregations and well spread dinners and everyone enjoyed the occasion.

Rev. L. R. Thomas will commence a protracted service here Saturday night before the third Sunday, Saturday, October 19th.

Joe Rivers' colored house was consumed by fire Saturday. Household furniture was saved but the kitchen furniture was lost.

MARRIAGE AT NEWBERRY.

Mr. A. A. Burke and Miss Mollie Swindal Unite Their Fortunes.

Newberry, Oct. 9.—Married, at the home of the bride's parents, Mr. and Mrs. Tom Swindal, Sunday afternoon, October 6th at 2:30 o'clock, Mr. A. A. Burke and Miss Mollie Swindal, Rev. Thompson officiating. The bride is one of Newberry's sweet young ladies and will make a model wife for him whose fortune it has been to win her heart. The groom is a worthy young man, and his close attention to business has gained for him the high esteem of all who know him. A host of friends join in best wishes for a long and happy married life.

Mrs. Sandlin of Jasper is here, the guest of her daughter, Mrs. Tom Swindal.

We are sorry to report Mrs. Porter Smith on the sick list this week. Her many friends hope to see her out again soon.

WHO USES HYOMEI?

The Best People in Gainesville, Say J. W. McCollum & Co.—Guaranteed in Catarrhal Troubles.

No other remedy or treatment for catarrh has ever been as popular or made so many remarkable cures in Gainesville as Hyomei.

The best people attest its curative virtues, say J. W. McCollum & Co., the local agents. The fair way in which Hyomei was sold, to refund the money unless it gives satisfaction, was the best proof when it was introduced that it possessed unusual curative powers. J. W. McCollum & Co. took all the risk of the treatment giving satisfaction, and left it to the purchasers to be the judge.

Later, when Hyomei was used and recommended by our well-known physicians and business men and their wives as a treatment that absolutely cured catarrh, no matter how serious or long standing, the sales rapidly grew and today there is no other remedy in J. W. McCollum & Co.'s stock that has such a large and staple sale.

The first breath of Hyomei's healing air kills all catarrhal poison.

Try Hyomei today. J. W. McCollum & Co.'s offer to refund the money if the treatment does not give you satisfaction.

A New Hotel.

Attention is called to the advertisement of The Commercial, Gainesville's new moderate-priced hostelry, which has just opened under the ownership and management of R. Daigre. Mr. Daigre, [illegible] the demand of a moderate-priced hotel, took advantage of the opportunity, secured a lease on the building at the corner of East Main and East Orange streets, and has opened up a first-class place. His furnishings are all new, his beds comfortable and the table supplied with a variety of the best the market affords. The rates are from $1.50 up, and satisfaction is guaranteed.

INSTITUTE TO BE HELD AT ARCHER

Meeting Will Precede Session of Presbytery of Suwannee.

MRS. NEWCOMB SUES FOR HUSBAND'S LIFE

Former Gainesville Girl Wants Damages from Slayer.

SAYS $100,000 WILL SATISFY HER

Widow of the Man Killed by Thomas W. Troy Files Suit for Large Sum Against Troy, and the Outcome Will Be Watched With Interest.

Mrs. Mary Agnes Newcomb of Miami, formerly Miss Agnes Sligh of this city, has entered suit against Thomas W. Troy, a wealthy lumberman, for the killing of her husband at West Palm Beach a few months ago, and the following report, taken from The Times-Union, will prove of interest to our readers, since the plaintiff in the case is so well known here:

"Mary Agnes Newcomb has begun suit for $100,000 damages against Thomas W. Troy, who will be tried this week in Miami for the alleged murder of the husband of the plaintiff.

"Mrs. Newcomb is suing for damages for her husband's death, the case being styled one of action on the case for wrongful death. The plaintiff is represented by Major Alexander St. Clair-Abrams.

"The husband of the complainant was killed at West Palm Beach a few months ago, and the defense of Troy, who was arrested immediately after the homicide, is based on the alleged threats made by Newcomb against his life.

"Troy is reputed to be a wealthy man, formerly residing at Macon, Ga. He had just returned from a trip to South America when the shooting that resulted in the death of Newcomb and the charge of murder occurred.

Story of Case.

"The story of the homicide, as the facts thus far have come to light and as reported at the time, may be briefly summarized as follows:

"He was eating a lunch and drinking in a bar and lunch room at West Palm Beach, when Newcomb entered.

"The men had had some difficulty previously and words were passed between them.

"It is alleged that Newcomb threatened Troy, and then dared the latter to shoot him.

"Troy, so the story is told by witnesses, walked to his suit case, took out a revolver and fired several shots, some of which struck Newcomb and his death resulted.

"Troy was arrested and after a preliminary hearing was released on a $25,000 bond raised by friends in Dade county.

"The case excited unusual interest and the criminal proceedings this week are expected to draw large crowds.

"The widow of the dead man now brings a civil action against the man on trial for the slaying of her husband and asks that she be allowed damages in the sum of $100,000."

PROF. W. S. CAWTHON TO HAVE COMMAND

Will be Principal of the Gainesville Graded and High Scho l.

SCHOOL WILL OPEN MONDAY

Prof. Cawthon, Who Has Been With University of Florida Since It Was Created by Buckman Law, Accepts Principalship—The Faculty.

Patrons of the Gainesville Graded and High School should extend their unanimous thanks to County Superintendent of Schools Dr. J. L. Kelley for his successful effort in securing as principal of this school one of the most thoroughly competent educators in the State, in the person of Prof. W. S. Cawthon.

The history of the delay in the opening of this school, caused by the sudden resignation of Prof. McBeath, has been told before, hence needs not repeating. Suffice it to say, this action of Prof. McBeath caused Dr. Kelley to get busy, as good teachers, or the majority of them, had been assigned, and it was a perplexing question with the board of trustees and the county superintendent—this question of a successor for Prof. McBeath.

But it seems that fortune favored Dr. Kelley's efforts, for Prof. Cawthon has closed a contract to open the school on Monday morning, October 14, only two weeks later than the time scheduled for the beginning of the term.

Prof. Cawthon, as has been stated, is a teacher capable, and by no means a stranger to Floridians. He holds a State certificate. He was graduated at the State Normal in 1890, degree of L.I. Summer School, Cornell University, 1896. Southern University in 1893, student in Peabody Normal College in 1899, University of Chicago, summer quarters, 1900-1905. A.B. University of Chicago, 1905, and graduate student in University of Florida, 1905-7.

Prof. Cawthon has been principal of Madison graded school; Quincy graded school, one year; Chipley, two years; Milton, one year. He has been connected with the University of Florida since that institution was created by the Buckman law, and at the time of his acceptance of this offer was librarian at the University.

Prof. Cawthon is a native of Alabama, but has been a resident in Florida since 1888. Notwithstanding his superior ability in his chosen profession, he is a very young man, being only thirty-six years of age.

Prof. Cawthon's assistants are all competent teachers, and are as follows:

Misses Gussie Muller, Ellen Wallace, Serena Shannon, Anna DaCosta, Mrs. W. P. Coffey, Misses Edith Brandt, Bessie L. Carver, Cylla Kennedy, Julia Kennedy, Florence Balis and Mabel Sanchez.

Superintendent Kelley declares that he does not believe there is a more competent corps of teachers as an aggregation in all Florida, and he predicts a successful year for the school.

UNIVERSITY NOTES.

Interesting Batch of Happenings at That Institution of Learning.

The citizens of Gainesville have shown great interest in the University ever since its removal to this city. Especially have the churches given a warm welcome to the students and faculty. In order to make the new students feel more at home by a personal acquaintance with its members, the Barraca Class of the Methodist church gave a reception at the White House in honor of the faculty and students on October 1, and the young people of the Baptist church nave issued invitations to the University to a reception to be held next Friday night at the home of Rev. S. B. Rogers. The first occasion was extremely pleasant. The second will no doubt prove equally so.

The Athenaeum Club, a society composed of the faculty of the University and of the members of the Experiment Station staff, held its first meeting for the school year last Friday night at the home of President Sledd. Only one member was absent. The paper of the evening, entitled "The History of Plant Pathology," was read by Professor Fawcett of the Experiment Station, and was discussed by many of the members. After this discussion refreshments were served. The next meeting will be held at the home of Dr. Farr, who will read the paper of the evening. The club meets every other Friday night. The present officers, who also comprise the executive committee, are Dr. Sledd, president; Dr. Flint, vice-president, and Dr. Crow, secretary and treasurer.

Coach Forsythe has a large squad of men out on the football field every afternoon, and is getting the first and second teams into good shape. Besides the old material, several promising candidates have appeared among the new men. Much enthusiasm has been engendered and it is believed that a fast, though light, team will be put on the field.

The Tuesday morning "talk" before the students assembled in chapel will be given today by Dr. Sledd. Last year almost all of these addresses were given by the president. This year it is planned to have some of them given by the members of the faculty and others by persons not connected with the University. These "talks" are limited to twenty minutes, and in order to make room for them in the daily schedule of exercises, chapel exercises are begun earlier than on other days.

Marriage at Newberry.

Married, at the home of the bride's parents, Mr. and Mrs. J. T. Swindal, Newberry, on Sunday, Rev. J. N. Thompson of Island Grove officiating, Miss Mollie Swindal and A. A. Burke. The affair was a quiet one, only the family and a few intimate friends of the contracting parties being present.

The groom is a member of the firm of Neel & Burke, general merchants, and is a successful young business man, well liked. The bride is a popular young lady, admired by all for her amiable disposition.

Friends extend congratulations.

A BIG INCREASE IN VALUATIONS

Real and Personal Valuations Larger Than Ever Before.

ARE HALF A MILLION LARGER

Over Year 1906, Which Shows That the People of Old Alachua Are Prosperous—Increase Comes in Every Branch of Real and Personal Lines.

The report of County Tax Assessor W. W. Colson for the year 1907 is very encouraging, as it shows a wonderfully increased valuation in real and personal property of all kinds.

The total valuation for 1907 is $5,735,089, being an increase over the previous year of nearly half a million dollars, the aggregate for 1906 being $5,290,000. This increase is the best evidence of the prosperity of the miner, the farmer, the business man, and in fact the whole people of this section, and places Alachua county among the foremost in rank of the counties of the State.

The following report of aggregate valuations is given by Assessor Colson:

Real estate, $2,769,260; personal property, $1,274,640; turpentine and timber property, $22,950; railroad property, $1,654,073; telegraph property (including telephone), $23,157. Total, $5,735,080.

Assessor Colson has performed his duties carefully, fully and accurately for this year, covering every nook and corner of the county, and his services are appreciated by the public.

HONOR TO PROF. POUND.

Has Been Appointed School Commissioner of Georgia.

The people of Gainesville will learn with pleasure of the appointment of Prof. Jere M. Pound as School Commissioner of the State of Georgia, vice Prof. Merritt, recently resigned.

Prof. Pound is well known throughout Florida, and is regarded as one of the most capable educators in the South. He was superintendent of the East Florida Seminary in this city for two years, holding that responsible position with eminent success. He was in charge of the Seminary when that institution was abolished by the enactment of the Buckman law.

For the past two years, or since leaving Florida, Prof. Pound has been at the head of the Girl's Industrial School at Milledgeville, Ga., where he has also made a great success.

Perfect Womanhood

The greatest menace to woman's permanent happiness in life is the suffering that comes from some derangement of the feminine organs.

Many thousands of women have realized this too late to save their health, barely in time to save their lives.

To be a successful wife, to retain the love and admiration of her husband, should be a woman's constant study.

If a woman finds that her energies are flagging, that she gets easily tired, dark shadows appear under her eyes, she has backache, headache, bearing-down sensations, nervousness, irregularities or the "blues," she should start at once to build up her system by a tonic with specific powers, such as

Lydia E. Pinkham's Vegetable Compound

the great woman's remedy for woman's ills, made only of roots and herbs.

It cures Female Complaints, such as Dragging Sensations, Weak Back, Falling and Displacements, Inflammation and Ulceration and all Organic Diseases, and is invaluable in the Change of Life. It dissolves and Expels Tumors at an early stage. Subdues Faintness, Nervous Prostration, Exhaustion, and strengthens and tones the Stomach. Cures Headache, General Debility, Indigestion, and invigorates the whole female sysem. It is an excellent remedy for derangements of the Kidneys in either sex.

THE BOARD OF CONTROL.

Held Meeting Saturday, but Only Three Members Were Present.

The regular meeting of the Board of Control was held at the Brown House in this city Saturday, but there were only three members present, with Secretary Kellum.

Those present were Hon. T. B. King of Arcadia, Hon. P. K. Yonge of Pensacola and Hon. J. C. Baisden of Live Oak, with Prof. J. G. Kellum, the secretary of the board. Hon. N. P. Bryan, Jacksonville, chairman, and Hon. E. L. Wartmann of Marion county, were absent.

There was no special business before the board, hence the regular routine was carried through. A great deal of business in that line, however, was acted upon.

OUR WASHINGTON NEWS LETTER

Political Speculation as to Outcome of Republican Convention.

THE SHIP SUBSIDY BILL AGAIN

Admiral Coghlan as a Trouble-Maker. Secretary Root Cultivating International Friendliness—Only Second to Taft in This Respect.

Special Correspondence The Daily Sun.

Washington, D. C., October 7—In spite of the fact that the President is out of Washington, political speculation is rife as to the outcome of the next nominating convention. Every politician who drifts into town is full of talk, rumors and speculation as to what the attitude of the President will be toward the candidacy of the several "favorite son" Republicans who are avowedly in the fight for the nomination. This speculation is almost profitless at this time, nevertheless it persists and is more or less interesting. It is a case of Taft against the field, always with the proviso on the part of the speculator that the President will not take a third term himself. Everything possible has been done to get further expressions of opinion from the President as to his attitude toward renomination and his preference for a candidate. It is not likely that there will be any further announcement from the administration on either of these points just now. The President has already expressed himself about the third term, saying that he did not want it and would not take it. As to his preference for the Taft candidacy, he has given it his quiet but positive approval. The same cannot be said for any of the other candidates. He is not apt to make any further statement on either subject at present because it is by no means a psychological moment. The convention is too far off for anything but talk.

Advocates of the shib subsidy bill are already at work in Washington. There will be a desperate effort made at the coming session to get legislation of some sort through. This is a measure that has by no means popular support throughout the country. All of the seaboard cities realize that it would be to their advantage if it materially helped to build up the mercantile marine, but the inland communities may be regarded as indifferent with the element against it that rises at the prospect of heavier public expenditures of such an indefinite effect as entrance to the subsidy field would entail. It is quite possible that if there is subsidy legislation it will take a very mild form and will be confined to secure additional steamship facilities for South America. This is unquestionably needed from a commercial standpoint, though whether such a heavy subsidy would secure it is a matter for serious consideration.

Admiral Coghlan has certainly secured for himself a well earned reputation as a trouble-maker for the Government. He has just come out in a statement on the subject of war with Japan and the necessity of sending a battleship squadron to the Pacific. It will of course be recalled that Admiral Coghlan who got himself into very warm water with Japan over his "Hoch der Kaiser" toast at a banquet a few years ago. There was nothing of course in reading the poem, but it was getting near enough to be uncomfortable, and it was apparent when the relations between the country and Germany were cordial, though the people of both countries would not have it appear otherwise.

The situation is just now with Japan, the loquacious Admiral out in print with his views on the possibility of war. It would be a good thing to duplicate the American fleet. That is what it would take to make the battleship squadron is to the Pacific than it would require six months' fight with Japan, her first-class power. The $100,000,000 spent in new battleships would make this country immune from attack by any power and would be a good investment.

My Hair Ran Away

Don't have a falling out with your hair. It might leave you! Then what? That would mean thin, scraggly, uneven, rough hair. Keep your hair at home! Fasten it tightly to your scalp! You can easily do it with Ayer's Hair Vigor. It is something more than a simple hair dressing. It is a hair medicine, a hair tonic, a hair food.

tantamount to a life insurance policy for an otherwise indigent family. He says also that it would remove any possibility of war and leave this country free to develop commercially as it chose. All this is quite true. But the inopportunity of the talk lies in the fact that it comes just at the moment when Secretary Taft and the Japanese higher officials are falling on each other's necks and swearing eternal friendship and scouting the possibility of war. Quite naturally if Japan has any lingering notion of war, she is not going to publish the fact in advance, and the way she struck Russia at the outbreak of the Manchurian trouble is an indication that the Oriental and Occidental minds work in different channels and that any nation with the faintest likelihood of Japanese trouble on its hands does not want to leave its gun at home when it goes visiting.

Secretary Root is making a record as a close second to Secretary Taft in cultivating international friendliness. His journey to Mexico is being watched by officials here with the greatest interest. He seems to have the faculty of doing and saying the right thing to appeal to the Latin-American mind, and the reports so far of his reception in Mexico are decidedly encouraging. It was less than twenty years ago that Mexico was not only rated as a decidedly fourth-class power, but was regarded as the last place on earth for the investment of American capital. Under President Diaz, however, the country has developed into a strong and compact nation, with ambition for commercial development and the ability to absorb the best of everything modern. Tens of millions of American capital are invested in Mexico not only in mining but in manufacture, and they are regarded quite as safe as investments in Canada. The Mexican people look to this country as the model in commercial and mechanical development, and it is not only natural but appropriate for us to take keen interest in the development of the big, strong State just South of us. Mexico will be able in the next few years to do more towards solidifying South America and keeping Central America in order than this country could ever do, and it is well that she should have not only our friendship but our cordial support. The visit of Secretary Root to President Diaz is a vital means to that end and seems to be accomplishing its purpose well.

It is announced from Ottawa that the Japanese-Canadian controversy is to be settled by the prompt payment of $6,000 damages to Japan for the Vancouver riot, and that Vancouver will be called on to foot the bill. This will make the end of the Japanese incident from the standpoint of the Ottawa government, but the affair is sure to rankle among the people of Japan and of the Pacific Coast for a long time to come.

CROOM PUSHES COLLECTORS.

Wants License Taxes Collected and Sent to His Office Without Delay.

The fact that Comptroller Croom is pushing the collection of license taxes for the coming year vigorously is best told in a letter received by County Tax Collector Dickinson.

Comptroller Croom instructs Collector Dickinson to prosecute the collection of licenses with haste, and to make remittance to the office of the Comptroller not later than the 15th inst. As a result, Collector Dickinson has "got busy," and is pushing the collections for all there is in it. He reports very successful work, and hopes to get the majority of collections in by the middle of the present month.

Captain Dickinson calls attention to the fact that any man engaged in business who continues said business after the first of each October without having secured a license, is acting in direct violation of the law.

MR. FLANNAGAN DEAD.

Husband of Former Gainesville Lady Passed Away at Miami Friday.

The information of the death of R. S. Flannagan, which occurred at his home in Miami Friday, was received here Sunday with a great deal of sorrow. Mr. Flannagan was the husband of the former Mrs. Lillie Sligh, who resided in Gainesville for several years, and who was quite popular. The sympathy of the community goes out to the bereaved widow in her hour of sadness.

Mrs. Flannagan was visiting relatives in Rock Hill, S. C., at the time of the death of her husband, and the news came as a great shock, almost prostrating her with grief.

McCreary, for sexton, etc., $35.

The marshal reported $131.75, fines and fees for impounding cattle.

The collector reported $362.75 license collected, and $53 water rents collected.

Alderman Bunch moved that the chairman of the sanitary committee be instructed to examine the cess pool in the rear of the United States land office, and to report the evil existing therefrom, should any be found. The motion was carried. Alderman Bunch moved that B. F. Miller be appointed inspector of plumbing for one month, to be paid $2 for each line inspected that connected with sewer. Motion was carried.

Alderman Bunch moved that the city attorney be instructed to draw an ordinance allowing property owners around whose property improvements are being made, to pay one-third cash, one-third in one year, and the remaining one-third in two years, with six per cent interest on last two payments. Motion carried.

Alderman Bunch moved that the attorney draw ordinance for city certificates and resolution as contained in request of Board of Public Works referred to him. Motion carried.

The communication of Dr. Andrew Sledd to the mayor regarding the cattle running at large around the University, and between here and the University, was referred back to the mayor, as there was an ordinance covering same.

The petition for a light at the intersection of Boundary and West Main streets was referred to the light committe.

Alderman Bunch moved that the recommendation of B. F. Miller, superintendent of water works, contained in his communication bearing date of October 1, regarding the tapping of water mains and hire of extra man, be adopted. Motion carried.

Alderman Bunch moved that the charman of the street committee confer with the Eddins Manufacturing Company, and see if his bid for bridge included abuttments; if not, how much would the extra cost be for same? Motion carried.

Complaint as to condition of the barracks lot was upon motion of Alderman Bunch referred to the street committee, to have the same cleared of debris and put in shape within thirty days.

In the matter of the claim of Geo. R. Ellis and H. L. Phifer for one-third cost of curbing and gutter around their premises, was referred to the street committee to investigate and report.

Alderman Bunch moved that the property owners on Alachua avenue and Liberty street be relieved from any assessment on the wall over Sweetwater branch by the Board of Public Works. Motion carried.

Alderman Mixson moved that the marshal be allowed $10 per month for horse feed. Motion carried.

Alderman Bunch moved to adjourn until Monday evening, October 14, which was carried.

Delightful Informal Occasion.

One of the most delightful informal occasions tendered in this city for some time, notwithstanding that it was a gathering of friends to bid a friend good-bye, was a gathering of a few intimate friends at the home of Mrs. Robt. McClellan, West Liberty street, Monday night, who had come together for the entertainment of Mrs. Maretta Brooks, organist at the First Baptist church, and one of Gainesville's leading music teachers, to tell the lady good-bye. Mrs. Brooks, who is well known and popular in this city, has accepted a traveling position with the Woodmen of the World, and will assume her new duties at once.

There were quite a number present, the evening being passed in a most pleasing manner in music, etc., and during the occasion delicious cold refreshments were served

As Shakespeare is quoted as saying, "Parting is such sweet sorrow, that we could say good-bye until the morrow," this was the case here, and, while those assembled very much dislike to have Mrs. Brooks leave, they parted, wishing her much success in her new role.

Rocky Point School.

The Rocky Point school opened the regular fall term Monday under most favorable circumstances, and with a good enrollment. The teacher this term is Miss Hayman of Princess Anne, Md., who comes highly recommended.

Miss Hayman is a young lady of clever disposition, and will no doubt prove popular with patrons and pupils of the school alike.

SLEEP BROKEN BY ITCHING ECZEMA

Skin of Whole Body Covered for a Year—Awful Itching Kept Sufferer Awake Half the Night—Tried All Kinds of Remedies but They Had No Effect.

CUTICURA REMEDIES A PERFECT SUCCESS

"I wish to let you know that I have used one set of Cuticura Remedies—one cake of Cuticura Soap, one box of Cuticura, but two vials of Cuticura Resolvent Pills—which cost me a dollar and twenty-five cents in all. For a year I have had what they call eczema. I had an itching all over my body, and when I would retire for the night it would keep me awake half the night, and the more I would scratch, the more it would itch. I tried all kinds of remedies, but could get no relief. A friend of mine told me to try the Cuticura Remedies which I did, and am very glad I tried them, for I was completely cured. If any of my friends should be troubled with the same disease, I will cheerfully recommend the Cuticura Remedies, and if I know any one who wants to know how I cured myself, I shall be glad to tell them. Walter W. Paglusch, 207 N. Robey St., Chicago, Ill., Oct. 8 and 16, 1906."

CUTICURA

The Great Skin Cure and Purest and Sweetest of Emollients.

Cuticura Ointment is, beyond question, the most successful curative for torturing, disfiguring humors of the skin and scalp, including loss of hair, yet compounded, in proof of which a single anointing with Cuticura Ointment, preceded by a hot bath with Cuticura Soap, and followed in the severer cases by a dose of Cuticura Resolvent (*Liquid or Pills*), is often sufficient to afford immediate relief in the most distressing forms of itching, burning, and scaly humors, eczemas, rashes, and irritations, permit rest and sleep, and point to a speedy cure when most, if not all, other remedies and even physicians fail.

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.), (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. The President, Secretary Taft and the Postmaster General are having a close race to see who can stay out of Washington the most these days.

A New Haven man married a woman, decided she was not his "affinity," got a divorce, thought it over, and remarried her. And still people talk about a woman's predilection for changing her mind.

There will have to be a showdown pretty soon by the Republican players in the Presidential jack-pot, for Taft and Cortelyou are both intent on raising the limit and forcing President Roosevelt to lay down or show his hand.

Carl Howell of Atlanta walked right into Hoke Smith's official sanctum sanctorum recently and shook hands with his excellency. Doubtless he is making as firmly convinced as ever however that he would look much handsomer in the easy chair than the present Governor of Georgia.

A ROOSEVELTIAN WAR.

That entertaining Republican newspapers, The New York Sun, declares that sending the fleet of battleships to the Pacific is not for practice purposes, but for war on Japan. As The Sun has unusually good opportunities for probing the inside mysteries of the administration, it is alarming to learn its opinion that: "The navy is going to the Pacific Ocean for war with Japan, and Japan recognizes the fact and is energetically preparing for it. Once the operation of transferring our ships to Pacific waters has been accomplished war is inevitable.

"It is an insane project.

"The American people do not want to go to war with Japan nor with any other country; but the American people are apparently without recourse or voice. There is little or no hope that Congress will dare to oppose the President's plans.

"It is one of the most serious situations that have confronted this country, and the only mitigating consideration that we are able to discern in that activity of the Navy Department —and of the War Department too—is at the present moment indicative of a full sense of the gravity of the impending crisis."

Possibly The Sun may be right in its diagnosis of the Rooseveltian intention, for any Don Quixote project is probably by the present administration, but it can hardly be possible that a majority of Congress could be brought to do so wicked and foolish a thing as to declare war against Japan. The only real reason for such action would be for the purpose of perpetuating the Republican party in power and the breaking of all precedents by the re-election for a third term of Theodore Roosevelt. Those two calamities would be co-existent. As the majority of the American people are not yet daft, we will still hope that The Sun is mistaken.

CONDITIONS ON THE ISTHMUS.

Miss Gertrude Beeks of the Civic Federation has just returned from a month on the Isthmus looking into the conditions there, and her report makes interesting reading. She found that conditions as a whole were fairly good but that they could be improved at many points. There are two classes of people on the Isthmus, the "employees" made up of the Amerian clerks and administrative staff, and tne "laborers" who are doing the actual manual work. Miss Beeks says that the condition of the laborers needs the more attention, as they have not the initiative or ambition to help provide for themselves. Most of them are Jamaica negroes or low-class Europeans. They take the accommodations provided for them, which, no matter how bad they may be, are a good deal better than the men have been used to at home, so they are quite satisfactory. That the general condition is not altogether bad is snown by the small death and sick report, but Miss Beeks says that the Government will have to exercise very strict supervision to make the laborers live like human beings. The employees are all right and can look after themselves, but if the healthy condition of the laborers is to be maintained and the work is to go on well, then the greatest care will have to be exercised in keeping the laboring classes up to the mark. This is a point that is well taken, and it is the better worth consideration since it comes from a capable and presumably unprejudiced outsider, and is not an official report in any sense of the term.

ARM-CHAIR ARMY OFFICERS.

Perhaps it is the President's fault and perhaps it is not. It sounds remarkably like one of his wicked schemes. But the general staff is getting the credit of it. Army officers who have not seen the top elevation of a horse except from a club window for years are going to be put through their paces riding as a preliminary for promotion. This is little short of awful. There are a lot of officers in Washington particularly who are healthy enough in a general sort of a way, and would not be retired for physical disability from an arm chair for the next decade, who may show up in very different shape after thirty miles on horseback. It may be only a coincidence, but there is a decided "hump" in the line of promotion, and if the officers under them have to wait for their step till the present sedentarily healthy officers are retired by law, then the younger men in the service will be wearing lieutenants' shoulder straps and bald heads at the same time. Therefore the riding qualification for promotion. The rumor about this test of physical efficiency has been afloat for some months, but the blow fell last week, and there are 60 officers from the rank of colonel down who will be put on the quarterdeck of a horse early this month and sent out for a long road ride. Then they will be examined, and the chances are that a lot of them will be retired. Being retired for physical disability is no disgrace, but it means reduced pay. However it will mean promotion for a lot of younger officers, and they will try to put up with this with becoming fortitude. It is a little hard on some of the arm-chair officers who can see their finish without the aid of a field glass, and they are naturally blaming it on the President, who, they hold, has a mania for physical exercise. He has come to the point where, in spite of tennis, he rides at 195. But he can still take a five-barred gate, and apparently he does not see why an army officer should not.

MUCH WORK—SMALL PAY.

Most anybody can edit a newspaper and make it interesting for awhile. Some people can keep up the interest for a month or two without flagging, but it takes a natural-born pencil shover and a hard worker to grind out an interesting batch of local and editorial items week after week for a term of years. There is no profession that is more exhausting or less remunerative for the work than the editorial or journalistic profession but how few believe this.—Palatka News.

All of which is very true, but suppose you had to keep your lick up day after day, instead of "week after week"? You fellows on the weekly press who get out good papers, like The News, undoubtedly have to work hard to do so, but you must multiply your weekly stunt by six and in many instances seven, before you will fully realize the diabolism of the strenuous life.—Live Oak Democrat.

The editor of The Democrat is correct. Our brethren of the weekly press who have never published a daily have no conception of the "strenuous life" we publishers of the daily papers have to lead. The editor of The Sun, for instance, has been working seventeen hours a day for the past two weeks, from 5 o'clock in the morning until 10 o'clock at night, with barely half an hour for meals, being compelled to "turn a hand" at everything connected with the business, from delivering papers, selling advertisements, keeping the books, collecting and paying bills, etc., to setting up the editorial copy.

WHAT IS OWNERSHIP.

Stewardship is not ownership, was the burden of the talk of Bishop Ingram in Trinity church, New York. That church is at the head of Wall Street, and most of the Bishop's auditors were from Wall Street. In law, the Bishop was a little mixed. There is in law a vast difference between stewardship and ownership, but in morals he was right. Private property is the result of the social compact. It is artificial. It is not a matter of religion or morality, but of compact. Yet all solemn and general compacts must be respected. Good faith requires this. But bad faith on the part of the holder or owner of private property is and always has been a ground of forfeiture. Bad faith is treason to the public. What the good Bishop meant was that ownership, being a matter of compact, amounted virtually to stewardship—to the rightful use of private property for the benefit of the community. Property is like a gun, when used in self-defense only its use is lawful and just. But when used to destroy his neighbor as a means of self-aggrandizement or mere revenge, such use is criminal, and in that case forfeiture is the only remedy. This is the old doctrine of deodands.

What will the next Congress do for and with sugar? asks The Washington Post. Those who know Uncle Joe and Vice-President Fairbanks assume that Congress will pay for it, and mix it with mint, lemon, ice and a little Old Crow, as usual.

One of the Important Duties of Physicians and the Well-Informed of the World

is to learn as to the relative standing and reliability of the leading manufacturers of medicinal agents, as the most eminent physicians are the most careful as to the uniform quality and perfect purity of remedies prescribed by them, and it is well known to physicians and the Well-Informed generally that the California Fig Syrup Co., by reason of its correct methods and perfect equipment and the ethical character of its product has attained to the high standing in scientific and commercial circles which is accorded to successful and reliable houses only, and, therefore, that the name of the Company has become a guarantee of the excellence of its remedy.

TRUTH AND QUALITY

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing, therefore we wish to call the attention of all who would enjoy good health, with its blessings, to the fact that it involves the question of right living with all the term implies. With proper knowledge of what is best each hour of recreation, of enjoyment, of contemplation and of effort may be made to contribute to that end and the use of medicines dispensed with generally to great advantage, but as in many instances a simple, wholesome remedy may be invaluable if taken at the proper time, the California Fig Syrup Co. feels that it is alike important to present truthfully the subject and to supply the one perfect laxative remedy which has won the appoval of physicians and the world-wide acceptance of the Well-Informed because of the excellence of the combination, known to all, and the original method of manufacture, which is known to the California Fig Syrup Co. only.

This valuable remedy has been long and favorably known under the name of Syrup of Figs—and has attained to world-wide acceptance as the most excellent of family laxatives, and as its pure laxative principles, obtained from Senna, are well known to physicians and the Well-Informed of the world to be the best of natural laxatives, we have adopted the more elaborate name of—Syrup of Figs and Elixir of Senna—as more fully descriptive of the remedy, but doubtless it will always be called for by the shorter name of Syrup of Figs—and to get its beneficial effects always note, when purchasing, the full name of the Company—California Fig Syrup Co.—plainly printed on the front of every package, whether you simply call for—Syrup of Figs—or by the full name—Syrup of Figs and Elixir of Senna—as—Syrup of Figs and Elixir of Senna—is the one laxative remedy manufactured by the California Fig Syrup Co. and the same heretofore known by the name—Syrup of Figs—which has given satisfaction to millions. The genuine is for sale by all leading druggists throughout the United States in original packages of one size only, the regular price of which is fifty cents per bottle.

Every bottle is sold under the general guarantee of the Company, filed with the Secretary of Agriculture, at Washington, D. C., that the remedy is not adulterated or misbranded within the meaning of the Food and Drugs Act, June 30th, 1906.

THE SANTE FE TRAIL

WRITTEN FOR THE SUN BY. J. MARVIN NICHOLS.

A globe trotter returning to this country from the illimitable steppes of Russia, or from the terrible rigors of far-off Siberia, comes with vivid recollections of those vast stretches of land. Nor can he have less remembrance were he to penetrate the mysterious interior of Africa. No more would a foreigner be impressed with the vast solicitudes of the West—the weary reaches of Kansas prairies, the far-away stretches of the Texas estacaddoes, and the silent grandeurs of the Rockies. So used have we become to the "Mighty West" that in these days of commercial conquest we have all but lost the real sense of its ancient meaning. Now, the tourist rides in Pullman cars over the foothills, the lesser ranges, and at last crosses the Great Divide. Over these highways he passes from the rigorous winds of a Texas or Kansas blizzard, until he finds himself among the perfumes and enchanted valleys of the Pacific coast. One can hardly realize the transformation that has taken place in these few short years. Hitherto, lumbering prairie schooners, harassed by all the dangers of the wildest frontier, dragged along the dusty highways of the plains and lost their way amidst the solitudes—the tortuous trails that led through the mighty canyons and along the dizzy precipices of a mountain trail. These old trails of the pioneer West have a lingering glory that refuses to fade.

Up in the Raton Hills of New Mexico and within full view of the Snow Range—the great Continental Divide this story finds me now. One can easily imagine how one thought dwarfs its image as the other flies. Yet this finds me at the old Clifton House, deep in the fastness of the Raton Range—the old stage house of the Santa Fe Trail. This highway of the traffic of the pioneers and the gold seekers out of the Mississippi Valley toward the peaceful Pacific and the land of gold.

Around this now almost deserted camp the builders of the West have gathered in the times that are dim. Around the door once hung the chieftains of the plains and mountains as they might barter with the pale faces from the Middle West. Now the old highway, thrown up from Fort Leavenworth, Kansas, on to Santa Fe, New Mexico, dips back into the distant past. No student of history can doubt but what over every trail, over four hundred years ago, Cabeca de Vaca led his adventuresome Spanish explorers. Close on his heels came La Salle, De Soto, Narvaez and Coronado, with their followers seeking to pierce the solitudes that lay beyond the snow-crowned, silent sentinels of the plains. Here and there they fell. Unshrouded and unhung, these Spanish spirits offered their bodies to the roving wolves and their bones to bleach on spots unmarked by shaft or slab.

Around this same hearthstone the Indian scouts of former days gathered in a bond of brotherhood such as the world has never known. Here Lucien Maxwell, Tim Bridger, old Bill Williams, Cody—our "Buffalo Bill," Carson—the Indian tamer, Dick Wootten, and old Kit Carson—here, with all their matchless fearlessness these conquerors of the West have been gathered. I shall never forget the day spent with Mrs. Allen of Taos—the only daughter of Kit Carson—one of the foremost builders of the mighty West. This hero died at Fort Lyons, Colo., in 1868, and his ashes rest in the ancient cemetery at Taos on the Trail near where I am tonight.

There was a period when the Santa Fe Trail was the only connecting link between the East and the far West. Some of the old, lingering trappers from the hills said to me today: "Cap'n, there warn't nothin' in them days but the Santa Fe Trail, Injuns and varmints." The varmints are here, good and plenty, now. Only two nights ago a fellow on the bum pulled out of Raton to foot it over to the Range into Trinidad twenty-five miles away. When he hit the Santa Fe tunnel a big mountain lion disputed the right-of-way. My friend lost no time, for he had a down-hill pull into Raton, and plenty to keep him going. Ernest Seton Thompson got all the wolf material he wanted right here at Clayton, but if Roosevelt is keen to hunt big game here's his paradise.

Old Zebulon Pike—the man that Pike's Peak discovered in 1806 (though they claim he discovered the Peak)—is the first man that interested the world in this highway to the West. At first, the trade went by Taos—the Pueblo that hangs along the verge of the Cimarron Canyon, second only to the Grand Canyon of Arizona, the wonder of the world. In order to shorten distance they afterwards blazed a trail along the Arkansas river to a point where it takes a northward course. There they crossed it, made an air line south for Raton Pass, and on to Santa Fe. Along this dangerous highway dust-covered teamsters brought their laden prairie schooners from Mississippi river points into the far-away Santa Fe country on a scheduled time. And now, along this very trail four great mountain railways have performed unthinkable feats in civil engineering until, in all the world there is no finer equipment to be found than right here where the throbbing mouguls drag their string up these mountain ways.

For ages—centuries at least—the Santa Fe Trail was by the faintest trace hewn out by the hoofs of patient burros that packed their loads across the Great Divide. Upon the discovery of gold along the Pacific shores the trail became the past of an enormous pilgrimage. In the days of the pack-mule it did not take the red-skin long to learn a trick. As stubborn and as patient as is the burro, yet he's a mighty timid beast. These bandits of the trail found out that all they had to do was to rattle a buffalo hide. And when these rattling hides and yelling Indians poured out like painted devils from some canyon those asses lost their bearings. As a result—pack, mule and all—landed in the bosom of the mountain pirates.

Among all the tribes south of the Ohio and west of the Mississippi none worked such awful havoc with the commerce of the trail as did the Comanches, Pawnees and Arapahoes. As early as 1829 the Government began to furnish troups to guard these caravans in their perilous pilgrimage through a country crammed with lurking and bloody red men.

These old, lingering pioneers, so loth to give up their frontier memories, will tell you that the biggest thing that was ever pulled off on the trail was the introduction of the wagon—"The Prairie Schooner." That's what old John Holland told me—the man who was raised on this trail, who helped to bury the bones of old Kit Carson in his Taos grave, and who now runs a gambling hell in Raton. There would be anywhere from seven to fifty of these wagons in a single caravan. The big ones were pulled by from eighteen to twenty-four mules; the smaller by from eight to twelve. When ready to strike camps they would swing the lead wagon into a circle until it caught up with the last wagon in the string. In this circular form they made for themselves a barricade against the attack of the red devils. In the early morning the head wogoner would give the signal for the breaking up of camp. Soon down the long line, the teamsters would yell: "All's set!" "Stretch out!" Bellowed the captain—"Fall in!"—and the long caravan would swing out into the trail again.

For days and days the unbroken solitudes of the plains was almost unendurable. The shifting sand dunes and solitary wastes were broken only by countless buffalo that now browsed lazily on the plains, and then broke away with tremendous tread that shook the very earth. At intervals, when the sands were hot and the winds were blistering, a teazing mirage would paint on the desert sky a scene of shade and fount. They sighed—and understood. After awhile the first mountain lifted its head above the horrizon. There it stood a silent sentinel of the plains over which it had kept a ceaseless watch for ages. Then came the hills, the mountains, the ranges—and the Great Divide.

These tragic days are gone—the days when the intrepid pushed their conquest toward Pacific shores. Many sleep in unmarked graves. Many were long since devoured by desert ghouls. The buffalo no longer sniffs the coming of civilization. The Indian, sullen and silent, no longer breaks from mountain crevices or the stillness of the plains. It is enough. It matters not where lie the bones of these builders of the Western Empire. The stars will keep their vigils. The granite hills will mark the sacred spot. The mellow radiance of the moon on these snowy hills will still the tumult of the past with a witchery that's gentle as a mother's love. The thundering commerce of these hills will tell the story. Sleep on—sleep on ye builders of the West! Rest in unmarked graves—ye fearless pioneers, ye builders of the Trail! These mighty hills have always been eternal—they cannot let you die.

DUTTON NOTES.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address

The wonderful growth of this Bank is, no doubt, attributable as much to the facilities offered, and the liberal, progressive policy of its management, as to the financial strength of its stockholders.

JAKE MOORE IN JAIL.

Accused of Blocking Train, was Turned Over to County by Bondsmen.

Jake Moore, a negro who was arrested some time during last fall upon a charge of obstructing the Seaboard Air Line track at Campville by piling crossties upon the same, and who has been out under bond, was turned over to Sheriff Fennell Tuesday by his bondsmen, and is now in jail.

Moore will be held awaiting action of the grand jury at the fall term of the circuit court in November.

Julius Caesar

Was a man of nerve, but sickness left its mark and he became aged before his time. Sickness is often caused by a torpid liver. Herbine will regulate your liver and give you health. Mrs. Carrie Austin, Hollon, Kansas, writes: "I consider Herbine the best medicine I ever heard of. I am never without it." Sold by W. M. Johnson.

Medical College Opens.

Charlotte, N. C., Oct. 7.—The North Carolina Medical college opened its fifteenth session here Friday. The opening marked the formal opening of the beautiful new building on North College street, built for the college. The exercises were largely attended and about 75 students have matriculated.

For Over Sixty Years

Mrs. Winslow's Soothing Syrup has been used for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea.

Killed a Big Rattler.

Sam Hodge, a colored farm hand on the Carter farm, a short distance west of the city, "run agin" a monster rattlesnake on the place Monday afternoon, after which he got busy and dispatched the reptile in quick order with a fence rail.

His snakeship was one of the largest seen in this section in several years, measuring six feet, three inches, and sporting eleven rattles and a button.

Your life—that inner realm of motive and aspiration—it is the most. Will you make good?

DEPOT AT WADE BURNED TO GROUND

Caught Fire Early Sunday Morning, and Loss Was Complete.

THE ROOF WAS IN BAD SHAPE

Shingles Were Badly Decayed and Highly Combustible—Riley & Anderson, Who Used House as Store-Room, Suffered Heavy Loss.

Wade, October 7- The depot at Wade was destroyed by fire at an early hour Sunday morning, also an A. C. L. box car, which was standing in the siding close to the depot.

The origin of the fire is unknown, but the supposition is that it caught from a passing train. The shingles were nearly rotten, and an A. C. L. crew of men were here to repair the cover Monday morning.

The fire started at the front and a spark must have burned through the roof and fell inside the depot which started the conflagration.

Through the heroic work of the citizens the balance of the town was saved from destruction. The depot was occupied by Riley & Anderson as a warehouse and they had about $1,200 in merchandise in the depot. Nothing was saved and the loss was total to the above firm, with no insurance.

SERVICES WELL ATTENDED.

Rally at Baptist Church Sunday Morning and Evening Was Enjoyed.

The grand rally services at the First Baptist church Sunday morning and evening to welcome the pastor, Rev. S. B. Rogers, who has been indisposed for the past few months, were thoroughly enjoyed and highly interesting. The morning service especially was well attended, members and friends of the church filling the edifice. The service was most impressive, and Dr. Rogers, for the first time he has felt able to occupy the pulpit, made a fine talk on "A Revival of Methods."

Owing to the very disagreeable condition of the streets from the severe afternoon rain, the evening service was not as largely attended as was anticipated and hoped for; but nearly a hundred showed their devotion to their church and their pastor by being present, despite the weather conditions. At this service Dr. Rogers addressed his hearers on the subject, "Observing the Discouraged."

Dr. Rogers is gladly welcomed back to his pulpit.

Epworth League Study Class.

On Monday evening the Epworth League Mission Study Class of the First Methodist church met at the residence of Dr. J. F. McKinstry, Sr. There were seventeen members present and a very pleasant hour was spent in the study of the new book, "The Uplift of China." W. R. McKinstry led the class in the recitation. After the lesson delicious refreshments of cake and sherbert were served.

This class now has twenty-three members and the interest in the class is constantly growing.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering, as th imagine, one from dyspepsia, another fr heart disease, another from liver or i ney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their easy-going or overbusy doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only *symptoms* caused by some uterine disease. The physician, ignorant of the *cause* of suffering, keeps up his treatment until large bills are made. The suffering patient gets no better by reason of the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription, *directed to the cause* would have entirely removed the disease, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, that "a disease known is half cured."

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects *in any condition of the female system.*

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing, nervous symptoms commonly attendant upon functional and organic disease of the uterus. It induces refreshing sleep and relieves mental anxiety and despondency.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. One to three a dose. Easy to take as candy.

Piano Is Paid For.

The ice cream supper and dance at Mr. and Mrs. Will Tucker's last Friday evening was quite a success. All the young folks of Rochelle and quite a number of out-of-town young people were present. Everybody enjoyed the dancing and report a fine time.

The young people of Rochelle always know how to have a good time.

We have the piano in Martha Perry Institute now paid for, and we wish to thank Prof. J. H. Owens for what he has done for the school; also the young people who have taken such an interest in helping him. We feel that Prof. Owens has done more for the Rochelle school than any other teacher who has taught here, and he is very highly honored for what he has done. PATRON.

Card of Thanks.

Editor Sun: I desire through your paper to express a word of thanks to Miss Bradley, superintendent of the hospital at Gainesville, for her extreme kindness to me while there; also to the nurses, who were kind and attentive to me, and to Dr. J. H. Hodges, who attended me. I must congratulate the people of Gainesville on having in their midst such a grand institution, equipped with such a competent manager and noble nurses.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

It Wasn't M. J. Ward.

M. J. Ward, a well-known and prominent citizen of Tacoma, who was in Gainesville Monday, called at The Sun office and stated that this paper had published an announcement in its September report of the proceedings of the Board of County Commissioners that, among others, he had "complied with the law," etc., and had been granted a permit to own and carry a pistol.

"This is not correct," remarked Mr. Ward. "I never had occasion to carry a pistol in my life, and it looks as though I was about getting ready to do so. I have no objection to the fellow who wants to carry a gun, because in many instances it may be an absolute necessity; but I have not yet arrived at that stage, and I desire The Sun to correct this impression."

The official proceedings of the Commissioners are taken from the minute book, and upon investigation it was observed that it was not M. J. Ward, but W. J. Ward, to whom the permit was granted. There being such a similarity of initials, the mistake was made.

Marshal Arnow's Report.

Those who think Marshal Arnow does not properly attend to his duties, evidently do not know what they are talking about. This efficient officer is ever on the alert for the interests and safety of those whom he was elected to protect, with the result that it has come to the point where those inclined to break the law are watchful of his whereabouts.

Marshal Arnow turned in his report for September to the Council Monday night, which, although may not look so creditable to the morals of the city, shows at least a credit to the diligence of the police force.

The report shows that during the month there occurred twenty-eight arrests, from which fines and costs derived aggregated $108.75. There were twenty-seven head of cattle and hogs arrested for the violation of the ordinance prohibiting them from running on the streets, and the impounding fees amounted to $13.50. The total business for the month ran to a total of $121.75.

PERSONAL AND SOCIAL ITEMS

What Has Happened and What is Going to Happen Told in Short Paragraphs So That "He Who Runs May Read" It in The Sun.

From Tuesday's Daily Sun:

Louis C. McClenny of Cadillac spent Sunday with friends in this city.

A. E. Pinholster, a progressive farmer of Brooker, was trading in the city yesterday.

For Sale—New second-hand cane mill, first-class order. Write J. N. Bone, Gainesville, Fla

Jasper Malphurs has gone to Bowling Green, Ky., where he will enter the Southern Business College.

For Sale—Crown organ; new, in good condition. Address Mrs. Conway, 205 West Main street, N., City.

Monday was rule day, but matters were rather quiet around the court house, County Judge Mason being away on his vacation.

J. N. Shealy of Rochelle was in the city Monday, and called to have The Sun sent to his address. Mr. Shealy reports matters quiet in his section.

The Board of County Commissioners held a special meeting Monday, in compliance with the law, to receive the tax books from Tax Assessor Colson.

Mrs. S. C. Means of Micanopy was in the city for a few hours Saturday. She was en route from Columbus, Ga., where she has been on a visit for the past few weeks.

Judge Horatio Davis has returned from Ms. Airy, Va., where he has been on his annual vacation. The Judge is looking well, and says he enjoyed his visit immensely.

Mr. and Mrs. H. G. Rembert have moved into the cottage, 505 N. Pleasant street, where they are now comfortably located and will be glad to welcome their friends.

Mrs. Dr. C. L. Carter and son have returned from LaGrange, Ga., where they spent the past three months pleasantly with the former's aunt, Mrs. S. E. Hutchinson.

James Fisher and sister, Miss Susie, are at home again, after a visit to Bogalusa, La. The former has been sick for some time, but friends will be glad to learn that his condition is greatly improved.

L. E. Reed of Isle of Pines, Cuba, is in the city on a visit to his sister, Mrs. J. H. Morton. Mr. Reed is making quite a success at orange growing in that country, which he declares is the finest on earth.

Rev. J. N. Thompson, the Baptist divine of Island Grove, passed through the city yesterday enroute home from Newberry, where on Sunday he administered the rite of baptism upon [illegible] and Mrs. Weeks.

Mayor W. R. Thomas has returned from St. Louis, Mo., and Swannanoa, N. C. Mrs. Thomas and children are in the latter place, where they are enjoying themselves immensely. They intend to be absent for another month.

J. T. Swindal of Newberry was among those who spent yesterday in this city. Mr. Swindal, who was for some time engaged in the livery business at Newberry, recently disposed of his interests to G. T. Ken[illegible]

Captain H. C. Parker, the merchant and all-round business man of Lo[illegible] spent Sunday in this city. He came to see his brother, C. F. Parker, who is confined at the Odd Fellows' Sanitarium from the effect of a surgical operation, but friends will be glad to learn that he is getting along nicely.

H. L. Beville of Arredondo section was in the city yesterday. Mr. Beville had with him a petition signed by a large number of residents of that section requesting that the route of a certain proposed hard road be changed for a distance of a mile, more or less, which he presented to the Board of County Commissioners at their meeting.

Contractor Beeman, who has the contract for laying of lateral sewer connections, states that the work is progressing finely. Many of the streets have already been completed, and he is now working on Arredondo street. He expects to finish the work as prescribed by contract in six months, when the sewerage system will be placed in active commission.

The new book typewriting machine, which was purchased through R. C. Davis & Co., Jacksonville, has now been installed in the office of Clerk Wienges at the court house, and Mr. Wienges is well pleased with the same, as he has already found it to be a labor and space saver. Miss Annie Wimberly, who is assisting her uncle in the office, had the honor Saturday of making the first record by the new "process."

Hon. Frank Clark and wife have returned to their home in this city, after a delightful visit to points in Georgia and elsewhere, and friends are glad to welcome them again. Their sons and daughters have been placed in various colleges and as Col. and Mrs. Clark will be alone they have decided not to keep house the coming winter. They are pleasantly located at the White House, where they will be glad to see their friends.

Captain A. Paul, special agent of the United States land office, has returned from his old home, Duluth, Minn., where he has been on his annual vacation to his sons and daughters. He reports a fine time. Captain Paul says the weather in that section of the country is fine now, a light frost having appeared about ten days ago. The crops and lumber interests have been good during the season, with the result that everybody is prosperous.

From Wednesday's Daily Sun:

All members of the faculty of the University and their wives, and the [illegible] students, members of the [illegible] of the Methodist [illegible] and all young people of the [illegible] congregation, are cordially invited to be present.

Wanted—Hardwood Timber.

The Brown-Jennings Hardwood Company of Lake Butler, Florida, are in the market for large quantities of hickory, white oak and ash timber. They offer to buy it either in the log or sawed into plank. Now that the price of pine is off, this is a fine opportunity for sawmills to work up lumber in which there is a profit, as they offer fancy prices for such lumber. This also affords the farmers, who are equipped with teams, a chance to get out logs at a fair figure.

For full information regarding prices, etc., address

Brown-Jennings Hardwood Co.
Lake Butler, Florida.
